Encyclopedia of Business Ethics and Society Robert W. Kolb, 2007-08-21 2008 Best Reference Library Journal As a field of study, business ethics aims to specify the principles under which businesses must operate to behave ethically. Thus, business ethics focuses on such issues as those that have recently attracted so much public scrutiny: executive compensation, honesty in accounting, transparency, treatment of stakeholders, and respect for the environment. These are, in fact, perennial questions that accompany the long history of human economic activity and that will also be present through an indeterminate future. The five volumes of this ultimate resource recognize the inherent unity between business ethics and business and society that stems from their shared primary concern with value in commerce. This Encyclopedia spans the relationships among business ethics and society by including more than 800 entries that feature broad coverage of corporate social responsibility, the obligation of companies to various stakeholder groups, the contribution of business to society and culture, and the relationship between organizations and the quality of the environment. Key Features: Embraces commerce in all of its ethical and social dimensions. Offers comprehensive and fairly lengthy essays on such crucial topics as justice, freedom, stakeholder theory, and regulation. Provides very brief essays that introduce important personages in the field, while other similarly brief entries explain the nature and function of various organizations. Includes contributions from respected authorities in the fields of management, psychology, sociology, communication, political science, philosophy, and other related fields. Cross-references to other entries in the Encyclopedia and includes a list of references and suggested readings for each article. Key Themes: Accounting, Applied Ethics, Corporate Management and the Environment, Corporate Powers, Organization and Governance, Corporations in the Social Sphere, Customers and Consumers, Economics and Business, Employee Issues, Environmental Thought, Theory, Regulation and Legislation, Ethical Thought and Theory, Finance, Gender, Age, Ethnicity, Diversity, and Sexual Preference, Information Systems, International Social and Ethical Issues, Justice, Legislation and Regulation, Management, Marketing, Organizations, Political Theory, Thought and Policy, Problematic Practices, Rights.
