Zim Nursing Training 2016 Intake:

Widening University Access and Participation in the Global South Edward Mboyonga, 2024-12-31 Using a capability approach as an analytical framework this timely volume examines how access to higher education enabled through private universities can transform students lives and contribute to human development in low income countries in the Global South Providing new insights into the contribution of the private higher education sector in Africa s developmental agendas the book offers an alternative to human capital theory by offering an expansive notion on the value of higher education emphasising both the economic and the intrinsic societal and social benefits that come from access to university and raised aspirations The chapters identify and discuss six specific capabilities valued by students that higher education provides This includes epistemological access epistemic contribution aspiration recognition respect and belonging Ubuntu and employability The book foregrounds the voices of students and lecturers to explore students aspirations agency access and participation Ultimately promoting a reconsideration of access to higher education beyond numerical terms by focusing on students access to transformative knowledge as means to promote their freedom to achieve well being the book will appeal to scholars researchers and postgraduate students in higher education African education studies and international and comparative education more broadly

Index Medicus, 2004 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings

Social Psychology Sibnath Deb, Anjali Gireesan, Pooja Prabhavalkar, Shayana Deb, 2023-12-29 This book examines the concept of social psychology in today s context It analyses the theoretical concepts of social psychology and their application to other fields It further explores the discipline in a cultural historical and philosophical context with special emphasis on religion The volume goes beyond individual focus and directs its attention to society as the centre of influence It advocates for a symbiotic relationship between the concepts of social psychology and their implementation in a society transitioning from being value oriented to commerce oriented The book also suggests ways in which social psychology can assist in dealing with issues plaguing today s world This book will be useful to students of psychology applied psychology sociology social work public health gender and women studies It will also be indispensable to professionals working in the field of paediatrics forensic medicine psychiatry and law enforcement authorities like police and judiciary

Effective Approaches to Global Health Issues Manoj Sharma, Ram Lakhan, 2024-09-20 *Effective Approaches to Global Health Issues* is a comprehensive interdisciplinary book that explores diverse topics in global health It serves as a valuable resource for understanding the complexities and challenges associated with global health from various perspectives The book delves into historical contexts health indicators cultural influences behavioral factors communicable and non communicable diseases malnutrition nutritional deficiencies obesity environmental health population issues women s and children s health mental well being global health systems and emerging issues in the field It goes beyond a mere recitation of topics and provides an engaging narrative that examines the interconnectedness of global health issues This is an essential reference for students

researchers and professionals involved in public health international development and related disciplines By providing a comprehensive understanding of global health issues and potential solutions this book equips readers with the knowledge and tools to address the complex challenges of global health in their respective fields Presents interdisciplinary perspectives on global health problems and solutions Highlights the epidemiological historical political sociological behavioral cultural and medical dimensions Provides readers with a roadmap to address issues and problems confronting both developed and developing nations

New Challenges and Future Perspectives in Nutrition and Sustainable Diets in Africa Hettie Carina Schönfeldt, Gloria Essilfie, Yunyun Gong, 2024-05-06 Africa is confronted with the triple burden of malnutrition it is also faced with the triple challenges of poverty inequality and unemployment In many African countries large proportions of the population rely on agriculture not only for their food but also for their livelihoods A transformed agricultural and food system is thus a necessary condition for addressing this double triple challenge Additionally post harvest and food waste and losses reduce the availability of sufficient quantities of safe edible and preferable foods At least one third of food produced at farm level is lost due to inappropriate storage infrastructure and agro processing technologies in developing countries and one third of food purchased is wasted at household and retail level
