Godwell Nhamo, David Chikodzi

Zimsec Exams November 2015 Registration:

Presidents for Life in Sub-Saharan Africa Teresa Nogueira Pinto, 2025-11-13 Teresa Nogueira Pinto analyzes how Robert Mugabe and Paul Kagame developed narratives to legitimize and entrench their power in Rwanda and Zimbabwe. From South America to Eastern Europe, semi-authoritarian leaders often deploy strategies of power legitimation rooted in historical legacies, political institutions, legal and constitutional frameworks, economic conditions, and shifting regional and international dynamics. This framework is particularly pertinent in an era when authoritarianism is evolving and liberal democracy is facing a prolonged period of decline. In *Presidents for Life in Sub-Saharan Africa*, Unpuzzling Authoritarianism in Zimbabwe and Rwanda, Pinto examines how Robert Mugabe and Paul Kagame used these strategies in their personalized semi-authoritarian and resilient regimes in Sub-Saharan Africa, as well as how their claims to legitimacy were challenged by opponents and civil society. She emphasizes that these strategies are not developed in isolation but have instead emerged from leaders' continuous interactions and negotiations in legal, political, and economic spheres. Recognizing that the legitimation of power operates across different dimensions, this book adopts a multidimensional approach to show how authoritarian leadership is constructed and challenged. Through comparison of these two African leaders, this book unveils the tactics used by authoritarian leaders to consolidate power and navigate threats to their authority. **Trade Policy**

Review, 2020 *Cyclones in Southern Africa* Godwell Nhamo, David Chikodzi, 2021-09-28 Tropical cyclones in Southern Africa, also known as hurricanes or typhoons in other regions of the world, is a hot subject for academic research. This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals (SDGs). The Paris Agreement, the Sendai Framework for Disaster Risk Reduction, and Habitat III's New Urban Agenda. The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty, inequality, and employment creation, as well as care for the earth and its natural resources and biodiversity. The SDGs further present an agenda to eradicate hunger, bring quality education, and sustain water and sanitation. The infrastructure development, human settlements, sustainable consumption and production, climate change, biodiversity, and the ocean blue economy agendas are also pitched. Lastly, the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels. However, as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world, the achievement of the 2030 Agenda for Sustainable Development is threatened. To this end, this book addresses this gap by documenting the implications of tropical cyclones, drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019. The book comes as part of a series with three volumes. The other volumes include *Cyclones in Southern Africa Vol 1*, *Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe*, and *Cyclones in Southern Africa Vol 2*.
