Literary Location and Dislocation of Myth in the Post/Colonial Anglophone World, 2017-11-01 The English speaking world today is so diverse that readers need a gateway to its many postcolonial narratives and art forms This collection of essays examines this diversity and what brings so many different cultures together Whether Indian Canadian Australasian or Zimbabwean the stories discussed focus on how artists render experiences of separation belonging and loss The histories and transformations postcolonial countries have gone through have given rise to a wide range of myths that retrace their birth evolution and decline Myths have enabled ethnic communities to live together the first section of this collection dwells on stories which can be both inclusive and exclusive under the aegis of nation While certain essays revisit and retell the crucial role women have played in mythical texts like the Mahabharata others discuss how settler colonies return to and reappropriate a past in order to define themselves in the present Crises clashes and conflicts which are at the heart of the second section of this book entail myths of historical and cultural dislocation They appear as breaks in time that call for reconstruction and redefinition a chief instance being the trauma of slavery with its deep geographical and cultural dislocations However the crises that have deprived entire communities of their homeland and their identity are followed by moments of remembrance reconciliation and rebuilding As the term postcolonial suggests the formerly colonized people seek to revisit and re-investigate the impact of colonization before committing it to collective memory In a more specifically

literary section texts are read as mythopoeia foregrounding the aesthetic and poetic issues in colonial and postcolonial poems and novels The texts explored here study in different ways the process of mythologization through images of location and dislocation The editors of this collection hope that readers worldwide will enjoy reading about the myths that have shaped and continue to shape postcolonial communities and nations CONTRIBUTORS Elara Bertho D nlaith Bird Marie Christine Blin Jaine Chemmachery Andr Dodeman Biljana ori Francuski Fr d ric Dumas Daniel Karlin Sabine Lauret Taft Anne Le Guellec Minel Iodie Raimbault Winfried Siemerling Laura Singeot Fran oise Storey Jeff Storey Christine Vandamme

Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies **Ethical Research**

Approaches to Indigenous Knowledge Education Mthembu, Ntokozo, 2020-08-14 South Africa s recent higher education protests around fees and decolonizing institutions have shone a spotlight on important issues and inspired global discussion The educational space was the most affected by clashes between languages and ideas the prioritizing of English and Afrikaans over indigenous African languages and the prioritizing of Western medicine literature arts culture and science over African ones Ethical Research Approaches to Indigenous Knowledge Education is a cutting edge scholarly resource that examines forthcoming methodologies and strategies on educational reform and the updating of curricula to accurately reflect cultural shifts The book examines the bias and problems that bias creates in educational systems around the world that have been dominated by Western forms of knowledge and scientific processes Featuring a range of topics such as andragogy indigenous knowledge and marginalized students this book is ideal for education professionals practitioners curriculum designers academicians researchers administrators and students **In the Steel Talons** Jabulani Mzinyathi, 2021-02-02

This work from the mind of Jabulani Mzinyathi deals with the themes that are dealt with in the collections of poems entitled

Under the Steel Yoke and Righteous Indignation The poems deal with among other themes oppression corruption despair liberation and hope Zimbabwe was torn to shreds under the misrule of Mugabe A dangerous personality reigned supreme There was a deification of Mugabe who drove millions into exile through draconian rule Corruption ran riot These poems under the title In The Steel Talons capture those issues and the inability now of the country s non existent health system to cope with a whole host of diseases including the scything covid 19 The poet has a fascination with steel due to the Stalinist methods employed by the ruling elite to suppress any dissenting voices Mugabe duped the world and masqueraded as a nationalist Heidi Holland called him the freedom fighter who became a tyrant The poems are an insider s view that seeks to show the resilience of Zimbabweans under despotism Hope refuses to die
