Vivaldi Violin Concerto D Major:

Complete Keyboard Transcriptions of Concertos by Baroque Composers Johann Sebastian Bach, 2013-02-21

Features 16 of Bach's transcriptions for solo keyboard instruments piano and harpsichord of concertos for violin and other non keyboard instruments by Vivaldi Telemann and others Bach Gesellschaft edition *Pentatonicism from the Eighteenth Century to Debussy* Jeremy Day-O'Connell, 2007 A generously illustrated examination of pentatonic black key scale techniques in the context of eighteenth and nineteenth century Western art music Pentatonicism from the Eighteenth Century to Debussy offers the first comprehensive account of a widely recognized aspect of music history the increasing use of pentatonic black key scale techniques in nineteenth century Western art music Pentatonicism in nineteenth century music encompasses hundreds of instances many of which predate by decades the more famous examples of Debussy and Dvorak This book weaves together historical commentary with music theory and analysis in order to explain the sources and significance of an important but hitherto only casually understood phenomenon The book introduces several distinct categories of pentatonic practice pastoral primitive exotic religious and coloristic and examines pentatonicism in relationship to changes in the melodic and harmonic sensibility of the time The text concludes with an additional appendix of over 400 examples an unprecedented resource demonstrating the individual artistry with which virtually every major nineteenth century composer from Schubert Chopin and Berlioz to Liszt Wagner and Mahler handled these seemingly simple materials of pentatonicism Jeremy Day O'Connell is assistant professor of music at Knox College *The Vivaldi Compendium* Michael Talbot, 2011 The Vivaldi Compendium represents the latest in Vivaldi research drawing on the author's close involvement with Vivaldi and Venetian music over four decades *The Italian Solo Concerto, 1700-1760* Simon McVeigh, Jehoash Hirshberg, 2004 The composition of the solo concerto studied as an evolving debate rather than a static technique and for its stylistic features The solo concerto a vast and important repertory of the early to mid eighteenth century is known generally only through a dozen concertos by Vivaldi and a handful of works by Albinoni and Marcello The authors aim to bring this repertory to greater prominence and have since 1995 been involved in a research programme of scoring and analysing over nine hundred concertos representing nearly the entire repertory available in early prints and manuscripts Drawing on this research they present a detailed study and analysis of the first movement ritornello form the central concept that enabled composers to develop musical thinking on a large scale Their approach is firstly to present the ritornello form as a rhetorical argument a musical process that dynamically unfolds in time and secondly to challenge notions of a linear stylistic development from baroque to classical instead discovering composers trying out different options which might themselves become norms against which new experiments could be made SIMON McVEIGH is Professor of Music Goldsmiths College University of London JEHOASH HIRSHBERG is Professor in the Musicology Department Hebrew University of Jerusalem
