the strength of judicial decisions the authors have elaborated a new methodology that is intended to give a more nuanced picture of the practice of constitutional adjudication in Europe The work opens with an assessment of the existing literature on empirical analysis of judicial decisions with a special focus on Western Europe and a short summary of the methodology of the project This is followed by 11 country studies and a concluding chapter providing a comprehensive comparative analysis of the results A further ten countries are explored in the counterpart volume to this book *Constitutional Review in Central and Eastern Europe Judicial Legislative Relations in Comparative Perspective* The collection will be an invaluable resource for those working in the areas of empirical legal research and comparative constitutional law as well as political scientists interested in judicial politics Chapters 1 and 13 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
