

## Section label • The Impact of Sleep Quality on Academic Performance

### Level 1 Heading — Attention Span

The ability to maintain focus and attention in the classroom is a critical aspect of academic success. Attention span can be influenced by various factors, and one such factor under scrutiny is the quality of sleep among students.

#### Level 2 Heading

##### Smartphone Use

As technology becomes increasingly integrated into our daily lives, the use of smartphones has become ubiquitous, especially among the younger generation. This study aims to explore how smartphone use, particularly before bedtime, may affect the attention span of students during classroom activities.

##### Method

To investigate the relationship between sleep quality, smartphone use, and attention span, a comprehensive research method was employed.

#### Level 3 Heading

##### Sampling Method

A non-probability sample of 100 college students was selected for this study. The decision to use a non-probability sample was driven by considerations of cost and convenience.

##### Procedure

Potential participants were recruited through university announcements and online forums. Interested students completed a screening survey that included questions about their sleep patterns and smartphone usage.

#### Level 4 Heading

**Tools.** Social media platforms such as Facebook and Twitter were utilized for participant recruitment. The study reached a broader audience by investing a nominal advertising fee to boost the visibility of recruitment posts.

**Participant Selection.** Participants were chosen based on their age, academic major, and self-reported sleep quality. This approach aimed to ensure a diverse and representative sample for the study.

#### Level 5 Heading

**Compensation.** As an incentive for participation, students who completed the survey were entered into a drawing to win bookstore vouchers.

*Introduction to Engineering* Quamrul H. Mazumder, 2016-02-10. Developed for the Ultimate Introductory Engineering Course. *Introduction to Engineering: An Assessment and Problem Solving Approach* incorporates experiential and problem- and activity-based instruction to engage students and empower them in their own learning. This book compiles the requirements of ABET, the organization that accredits most US engineering, computer science, and technology programs, and equivalency evaluations to international engineering programs, and integrates the educational practices of the Association of American Colleges and Universities (AACU). The book provides learning objectives aligned with ABET learning outcomes and AACU high-impact educational practices. It also identifies methods for overcoming institutional barriers and challenges to implementing assessment initiatives. The book begins with an overview of the assessment theory, presents examples of real-world applications, and includes key assessment resources throughout. In addition, the book covers six basic themes: Use of assessment to improve student learning and educational programs at both undergraduate and graduate levels; Understanding and applying ABET criteria to accomplish differing program and institutional missions; Illustration of evaluation/assessment activities that can assist faculty in improving undergraduate and graduate courses and programs; Description of tools and methods that have been demonstrated to improve the quality of degree programs and maintain accreditation; Using high-impact educational practices to maximize student learning; Identification of methods for overcoming institutional barriers and challenges to implementing assessment initiative. A practical guide to the field of engineering and engineering technology. *Introduction to Engineering: An Assessment and Problem Solving Approach* serves as an aid to both instructor and student in developing competencies and skills required by ABET and AACU.
