the establishment and development of geography as an academic discipline at Stellenbosch South Africa's founding geography department. The ways in which the department currently operates are deemed fundamentally joined to its past and pave the way for the evolution of geography and its various subdisciplines going forward. The investigation seeks to highlight the development of the discipline and its institutionalisation as part of the academic offerings of the university while providing details about the teaching and research conducted as well as of the people who contributed to these endeavours. It also furnishes the academic geography community at Stellenbosch and geography more broadly with some insights into its past development and more recent changes along with a complete bibliography of conducted research. Museum Times Leslie Witz, 2026-03-01. Museums flourished in post-apartheid South Africa. In older museums there were renovations on the go and at least fifty new museums opened. Most sought to depict violence and suffering under apartheid and the growth of resistance. These unlikely journeys are tracked as museums became a primary setting for contesting histories. From the renowned Robben Island Museum to the almost unknown Lwandle Migrant Labour Museum, the author demonstrates how an institution concerned with the conservation of the past is simultaneously a site for changing history. **Reflections of South African Student Leaders: 1994 to 2017** Ntokozo Bhengu, Denyse Webbstock, 2020-05-13. Reflections of South African Student Leaders 1994-2017 brings together the reflections of twelve former SRC leaders from across the landscape of South African universities. Reviews of the previous volume 1981-2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fast-changing and increasingly complex public higher education sector. This volume is based on comprehensive interviews with former student leaders, each of whom provided a personal account in their own words of their experience in the position of student leadership. The interviewees are from different backgrounds and of diverse political persuasions. The book is important for current and future leaders of higher education institutions as it provides insights into the thinking, aspirations, desires, fears, and modus operandi of student leaders. Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders. *Trading Justice for Peace?* Sigríður Guðmarsdóttir, Paulette Regan, Demaine Solomons, 2022-03-01. Conflict in its various manifestations continues to be a defining feature in many places throughout the world. In an attempt to address such conflict, various forms of a Truth and Reconciliation Commission (TRC) have been introduced to facilitate the transition from social conflict to a new dispensation. The introduction and subsequent proceedings of TRCs in South Africa, Canada, and Norway are widely regarded as good examples of this approach. Against this background, a number of researchers from VID Specialized University and the University of the Western Cape had an exploratory meeting in Oslo in 2018 where the possibility for a joint research project under the broad theme of discourses on reconciliation was first discussed. This led to two further research symposia in Cape Town and Tromsø in 2019. With the inclusion of specialists working on the Canadian Truth and Reconciliation process, these

meetings demonstrated common ground and a shared understanding of the issues at stake Moreover it pointed to the differences between the South African Canadian and Norwegian Commissions In comparing the South African Canadian and Norwegian experiences researchers identified that these countries were in fact at different stages of their respective truth and reconciliation processes This has prompted scholars to revisit and problematise these processes in relation to ongoing societal challenges In all cases it is quite apparent that reconciliation between individuals and groups remains a significant challenge Multilingual Youth Practices in Computer Mediated Communication Cecelia Cutler,Unn Røyneland,2018-09-20

With an eye to the playful reflexive self conscious ways in which global youth engage with each other online this volume analyzes user generated data from these interactions to show how communication technologies and multilingual resources are deployed to project local as well as trans local orientations With examples from a range of multilingual settings each author explores how youth exploit the creative heteroglossic potential of their linguistic repertoires from rudimentary attempts to engage with others in a second language to hybrid multilingual practices Often their linguistic orthographic and stylistic choices challenge linguistic purity and prescriptive correctness yet in other cases their utterances constitute language policing linking standardness or correctness to piety trans local affiliation or national belonging Written for advanced undergraduates postgraduates and researchers in linguistics applied linguistics education and media and communication studies this volume is a timely and readymade resource for researching online multilingualism with a range of methodologies and perspectives **The International Baccalaureate: 50 Years of Education for a Better World**
