**Forging Solidarity** Astrid von Kotze, Shirley Walters, 2017-04-13 Animating this book is a twofold question In what ways are adult and popular educators responding to various harsh economic political cultural and environmental conditions In doing so are they planting seeds of hope for and imaginings of alternative futures which can connect individuals and communities locally and globally to achieve economic ecological and social justice The book illustrates how transformative

politics of solidarity often involve actors across vastly different backgrounds Solidarity is therefore a political relationship that is forged through particular struggles situated in place and time across power differentials The authors put popular education to work by describing and analysing their strategies and approaches They do so using accessible language and engaging styles Popular education is a medium for dreaming for imagining other futures It is also essential for countering the wilful spreading of fake news and propagation of ignorance Pedagogies of solidarity are necessary to building connections amongst people at a time when competitive individualism and alienation are rampant Forging solidarity with and amongst communities is a means towards that end and indeed an end in itself Corporate mines and agribusiness poison the water we drink the air we breathe and the food we eat Together with their political proxies they destroy the earth and her peoples too many are killed because of their military economic religious and information wars How do we stand up for ourselves and the earth that nourishes us against this global system Forging Solidarity shares inspiring stories that feed our deep connection and power Preys Govender Author of Love and Courage A Story of Insubordination Forging Solidarity is a critical and timely collective intervention that ponders prods pokes and plays in the most generative ways In so doing it invites us to continue deepening our engagements with questions of responsibility and justice in relation to education everywhere Richa Nagar author of Muddying the Waters Co authoring Feminisms across Scholarship and Activism This book inspires people to realize that not fighting against socio economic injustices is to side with oppressors Ntombi Nyathi Programme Director of Training for Transformation Interest Groups, Water Politics and Governance Richard Meissner, 2015-07-08 The book investigates the role interest groups have played over the years to influence the governments of Lesotho and South Africa the World Bank and project implementation authorities in changing some policy aspects of the Lesotho Highlands Water Project LHWP Some of the issues being agitated by the interest groups are the resettlement of villagers where some of the dams for the projects are being constructed The author argues that interest groups and individuals have the ability to influence the above mentioned institutions and to such an extent that water politics and governance is not the domain of state institutions only
