Africa and Globalization

Kelebogile T. Setiloane, Abdul Karim Bangura, 2020-10-24 This edited volume examines the challenges of globalization in light of the need to revisit and reconceptualize the notion of Pan Africanism The first part of the book examines globalization and Africa's socioeconomic and political development in this century by using the Diopian Pluridisciplinary Methodology This approach is imperative because the challenges faced by Africa vis vis globalization and socioeconomic development are so multiplexed that no single disciplinary approach can adequately analyze them and yield substantive policy recommendations

The chapters in the second part analyze the imperatives for Africa's global knowledge production development and economic transformation in the face of the pressures of globalization. Part two demonstrates an urgent need for Africa's significant participation in the global knowledge economy in order to meet the continent's modern transformation and development aspirations. The final part examines lessons from old and new Pan Africanism and how they can be utilized to deal with the challenges emanating from the forces of modern globalization. With its multidisciplinary approach to a wide range of pressing modern issues for the African continent, this book is essential reading for scholars across the social sciences interested in where Africa is now and where it should go in this increasingly globalized world.
