The Diary of an IITian Shrikant Joshi ,2023-12-29 The book is a potpourri of episodes not necessarily in chronological order of the author s entrepreneurial journey in a cutting edge industry working with government organizations Each of the episodes is a story in itself Going through them one can get the feel of running an engineering company in the late 1990 s all the way to the current day Though the episodes make the reader wonder at the series of misfortunes mostly circumstantial it is not all sad reading There are many instances of humor which give the reader an insight into author s mental makeup and his ability to persevere in the face of adversity to make a success of his enterprise The lucid narration makes the stories gripping in spite of the tragic content **Technological Innovation Across Nations** Marina van Geenhuizen,Chihiro

Watanabe,Vinnie Jauhari,Enno Masurel,2009-04-05 Innovation is the driving force behind economic growth The knowledge

that fosters innovation builds on both systematic research and serendipity The availability of new knowledge be it technological or organizational social is however sufficient An institutional structure must be in place that enhances mutual learning among the actors involved and that stimulates cooperation as well as competition This recognition has inspired this volume which focuses on national innovation systems and sectoral technology innovation systems that differ widely between countries due to their diverse historical paths and distinctive cultural and societal features With regard to theory most chapters incorporate a mix of endogenous growth theory and evolutionary thinking Endogenous growth theory places an emphasis on the interplay between technological knowledge and various structural characteristics of the economy and society as well as on the results of economic growth Concepts related to technology development accumulation of knowledge on technology and technology diffusion feature prominently here In evolutionary thinking and in particular coevolutionary thinking the focus is on close links between technology and institutions whereby the functionality of technology is influenced by certain dynamic interactions with institutional systems Information technology turns out to be a clear example of such a development
