Strategic Communication Research in the Age of AI Young Joon Lim,2024-10-14 This comprehensive integrated research methods guide equips students and researchers to conduct effective studies in the evolving field of strategic communication The book covers the entire research process from formulating research questions to analyzing data and presenting findings with a particular focus on navigating the complexities of AI and social media integration While numbers and statistics can be daunting to students integrating statistical methods with traditional approaches allows for more robust research projects and impactful findings Augmenting quantitative and qualitative methods with the latest digital tools and resources Strategic Communication Research in the Age of AI is an accessible guide to researching traditional and social media public relations advertising and marketing communication

Features Comprehensive Coverage The book addresses all essential elements of strategic communication research including research design methodologies quantitative qualitative experimental content analysis data collection and analysis including AI tools statistical analysis descriptive and inferential and ethical considerations **Focus on AI and Social Media** It emphasizes the growing role of AI and social media in communication research providing practical guidance on leveraging these tools for research tasks like data collection sampling analysis and presentation **Student Friendly Approach** The book is designed for students with clear explanations step by step examples chapter summaries and key questions to reinforce understanding It incorporates real world scenarios and case studies to illustrate research concepts in action **Strong Foundation in Statistics** Dedicated chapters introduce both descriptive and inferential statistics explaining key concepts and formulas relevant to strategic communication research **Focus on Writing and Presentation** The book provides clear guidelines for writing research papers in APA style including structure citation techniques and best practices for presenting research findings It highlights the importance of clear communication and effective presentation in the digital age **Instructor Resources** Lecture slides and test materials are available on the publisher's website

Decision Making in a World of Comparative Effectiveness Research Howard G. Birnbaum, Paul E. Greenberg, 2017-05-05 In the past decade there has been a worldwide evolution in evidence based medicine that focuses on real world Comparative Effectiveness Research CER to compare the effects of one medical treatment versus another in real world settings While most of this burgeoning literature has focused on research findings data and methods Howard Birnbaum and Paul Greenberg both of Analysis Group have edited a book that provides a practical guide to decision making using the results of analysis and interpretation of CER **Decision Making in a World of Comparative Effectiveness** contains chapters by senior industry executives key opinion leaders accomplished researchers and leading attorneys involved in resolving disputes in the life sciences industry The book is aimed at users and decision makers involved in the life sciences industry rather than those doing the actual research This book appeals to those who commission CER within the life sciences industry pharmaceutical biologic and device manufacturers government both public and private payers as well as decision makers of all levels both in the US and globally

PropTech and Real Estate Innovations Olayiwola Oladiran, Louisa Dickins, 2024-08-22 This textbook serves as a guide to real estate students and educators on the various property innovations and digital technologies that continue to shape the property industry The advancement of PropTech in the last few decades has led to significant changes in real estate systems operations and practice and this new textbook provides insight on the past present and future of PropTech innovations that have spread across the value chain of real estate through planning development management finance investment operations and transactions The textbook approaches this subject from the real estate components asset classes and submarkets and links them to the associated innovations and digital technologies It concludes by reviewing the role of education innovation skill development and professionalism as major elements of the future of real estate operations and practice This book's unique contributions are in

putting the property element at the forefront and then illustrating how technology can enhance the various areas of real estate the focus on how the different innovations and technologies can enhance the economic environmental social and physical efficiency of real estate and its coverage of some non technological innovations like flexible working and more practical areas of real estate innovation such as skills employability creativity and education It contains 21 case studies and 29 case summaries which can serve as practice exercises for students This book will be useful to students in helping them build a knowledge base and understanding of innovation and digital technologies in the industry Real estate educators can use the textbook as a guide to incorporate real estate innovation and digital technologies into their current teaching and also to develop their real estate curricula through PropTech related modules and courses where necessary It will also be valuable to real estate researchers in search of the theoretical and conceptual linkages as well as industry practitioners who seek insight into the current and future potential of digital technologies and their applications to real estate operations and practice

Health Economics Barbara McPake, Charles Normand, Anne Nolan, Samantha Smith, 2020-05-04 Health Economics An International Perspective is the only textbook to provide a truly international comparative treatment of health economics Offering an analysis of health systems across borders the fourth edition of this key text has been updated and revised to take account of changes in a host of countries This edition features an expanded introduction providing better grounding for many of the examples that come in subsequent chapters and making it easier for non health care experts to see the links between the theory the examples and the health care system components It also boasts a restructured format dividing the book into two broad sections the first focuses on ideas and principles along with evidence on their applications in the health sector whereas the second focuses on introducing core tools and techniques used in applied health economics research Further updates to this edition include two new chapters on applied econometrics a new chapter on equity focusing on equity in access to health care paying particular attention to how access and need for health care are defined and measured in applied research a new chapter on emerging issues for health systems that are emanating from a series of global transitions both within e g demographic change epidemiological change the global resolution on universal health coverage and without the health sector e g economic transitions Throughout the text examples and illustrations are taken from a wide range of settings and world regions providing a unique overview of the performance of different health systems

Fixed-Income Portfolio Analytics David Jamieson Bolder, 2015-02-02 The book offers a detailed robust and consistent framework for the joint consideration of portfolio exposure risk and performance across a wide range of underlying fixed income instruments and risk factors Through extensive use of practical examples the author also highlights the necessary technical tools and the common pitfalls that arise when working in this area Finally the book discusses tools for testing the reasonableness of the key analytics to help build and maintain confidence for using these techniques in day to day decision making This will be of keen interest to risk managers analysts and asset managers responsible for fixed income portfolios

Propensity Score Methods and Applications Haiyan Bai, M. H. Clark, 2018-11-20 A concise introductory text *Propensity Score Methods and Applications* describes propensity score methods PSM and how they are used to balance the distributions of observed covariates between treatment conditions as a means to reduce selection bias This new QASS title specifically focuses on the procedures of implementing PSM for research in social sciences instead of merely demonstrating the effectiveness of the method Using succinct and approachable language to introduce the basic concepts of PSM authors Haiyan Bai and M H Clark present basic concepts assumptions procedures available software packages and step by step examples for implementing PSM using real world data with exercises at the end of each chapter allowing readers to replicate examples on their own *Bond Pricing and Portfolio Analysis* Olivier de La Grandville, 2003-01-24 Makes accessible the most important methodological advances in bond evaluation from the past twenty years *Forthcoming Books* Rose Arny, 2003 *A Practical Guide to MAXLIK* Karl Schütz, Rand Corporation, 1983 **Empirical Science of Financial Fluctuations** Hideki Takayasu, 2013-03-14 Financial fluctuations were generally neglected in classical economics and their basic statistical properties have only recently been elucidated in the emerging field of econophysics a new science that analyzes data using methods developed by statistical physics such as chaos fractals and phase transitions This volume is the proceedings of a workshop at which leading international researchers in this discipline discussed their most recent results and examined the validity of the empirical laws of econophysics Topics include stock market prices and foreign exchange rates income distribution market anomalies and risk management The papers herein relate econophysics to other models present new models and illustrate the mechanisms by which financial fluctuations occur using actual financial data Containing the most recent econophysics results this volume will serve as an indispensable reference for economic theorists and practitioners alike *Principles and Challenges of Fundamental Methods in Veterinary Epidemiology and Economics* Salome Dürr, Victoria J. Brookes, Andres M. Perez, 2021-08-09 *Financial Modelling with Jump Processes* Rama Cont, Peter Tankov, 2003-12-30 WINNER of a Riskbook.com Best of 2004 Book Award During the last decade financial models based on jump processes have acquired increasing popularity in risk management and option pricing Much has been published on the subject but the technical nature of most papers makes them difficult for nonspecialists to understand and the mathematic
