

- e) Push the lock end (4) (forward end) of the central door locking switch (5), and then push the unlock end (6) (backward end). Repeat this operation 3 times.

Every time you perform the series of the above steps, the state of the security system changes from the currently selected one to the other. You can check whether the system is enabled or disabled by the number of interior buzzer beeps at the end of the procedure as follows.

System state	Number of beeps
Disabled	Once
Enabled	4 times

- If you cannot complete the operations in step 3) and 4) within 15 seconds correctly, the state of the security system will not change and the interior buzzer does not beep. Perform the procedure again from the beginning.

NOTE:

You can also switch the security system from the enabled state to the disabled state, and vice versa, via the setting mode of the information display. For details on how to use the information display, refer to "Information Display" in this section.
