National Bureau of Standards,1956 **SIPRE Report** , **Ideological and Political Bias in Psychology** Craig L. Frisby,Richard E. Redding,William T. O'Donohue,Scott O. Lilienfeld,2023-09-13 This book examines the traditional assumptions made by academics and professionals alike that have embedded sociopolitical biases that impede practice and undermine efforts to achieve an objective scientific status If allowed to go unchallenged the credibility of psychology as a discipline is compromised This contributed volume thoroughly and comprehensively examines this concern in a conceptually and empirically rigorous manner and offers constructive solutions for minimizing undue political influences within the field of psychology Societies in the 21st century desperately need reliable psychological science but we don t have it This important volume explains one of the main reasons why we are making little progress on any issue that gets contaminated by the left right culture war because the field of psychology is an enthusiastic member of one of the two teams so it rejects findings and researchers who question its ideological commitments The authors of this engaging volume also show us the way out They diagnose the social dynamics of bias and point to reforms that would give us the psychology that we need to address 21st century problems Jonathan Haidt Thomas Cooley Professor of Ethical Leadership NYU Stern School of Business and author of *The Righteous Mind* The boundaries of free speech censorship moral cultures social justice and ideological biases are among the many incendiary topics discussed in this book If you are looking for a deep dive into real world contemporary controversies *Ideological and Political Bias in Psychology* fits the bill The chapters are thoughtful and thought provoking Most readers will find something to agree with and something to rage at in almost every chapter It just may change how you think about some of these topics Diane F Halpern Professor of Psychology Emerita Claremont McKenna College and Past

President American Psychological Association Unless the political left is always correct about everything in which case we wouldn't need to do research we could just ask a leftist the growing political monoculture of social science is a major barrier to our search for the truth This volume shows how ideological bias should be treated as a source of research error up there with classic methodological flaws like non random assignment and non blind measurement Steven Pinker Johnstone Professor of Psychology Harvard University and the author of *Rationality* An important read for academics curious about how their politics fashions beliefs that too often are uncritically taken for granted and for non academics wondering why we can't shake off the politics that so influences scientific work Vernon Smith Nobel Laureate in Economic Sciences and George L Argyros Chair in Finance and Economics Chapman University Advances and deepens empirically rigorous scholarship into biased political influences affecting academic and professional psychology Offers constructive solutions for minimizing undue political influences within psychology and moving the field forward Serves as a resource for psychological academicians researchers practitioners and consultants seeking to restore the principles of accurate science and effective practice to their respective areas of research *ERDA Energy Research Abstracts* United States.
