Toward an Islamic Theology of Nonviolence Adnane Mokrani, 2022-07-01 This groundbreaking book offers the first systematic study of the Qur'an and Islamic history in the light of René Girard's mimetic theory. Girard did not deal deeply with Islam, offering only scattered hints in some interviews after the September 11, 2001 attacks in the United States. Addressing this gap in Girardian studies, Adnane Mokrani aims to develop an Islamic theology that goes beyond just war theory to adopt a radical nonviolent approach. He analyzes the Qur'anic text and classical and modern exegetical literature focusing on the Qur'anic narratives, then extends his research to the history of Islam, removing the sacred character attributed to some events and human choices in order to disarm theology and dismantle the ideologies of power. This same critique is also applied to the unprecedented levels of violence in modern and contemporary history. A radical and politically committed theology of peace is needed to recover the spiritual dimension of religion that frees people from the temptations of the individual and collective ego. It is a mystical and narrative theology in dialogue with other world theologies on the future of humanity, an urgent appeal needed now more than ever.

The Imperatives of Progressive Islam Adis Duderija, 2017-02-03 With the proliferation of transnational Muslim networks over the last two decades, the religious authority of traditionally educated Muslim scholars, the *uluma*, has come under increasing scrutiny and disruption. These networks have provided a public space for multiple perspectives on Islam to be voiced, allowing progressive Islamic worldviews to flourish alongside more neo-traditional outlooks. This book brings together the scholarship of leading progressive Muslim scholars, incorporating issues pertaining to politics, jurisprudence, ethics, theology, epistemology, gender, and hermeneutics in the Islamic tradition. It provides a comprehensive discussion of the normative imperatives behind a progressive Muslim thought, as well as outlining its various values and aims. Presenting this emerging and distinctive school of Islamic thought in an engaging and scholarly manner, this is essential reading for any academic interested in contemporary religious thought and the development of modern Islam.

The Concept of Peace in Judaism, Christianity and Islam Georges Tamer, 2020-10-26 The eighth volume of the series *Key Concepts of Interreligious Discourses* investigates the roots of the concept of peace in Judaism, Christianity, and Islam, and its relevance for the present time. Facing present violent conflicts, waged and justified by religious ideas or reasons, peace building prevails in current debates about religion and peace. Here the central question is: How may traditional sources in religions help to put down the weapons and create a society in which everyone can live safely without hostilities and the threat of violence? When we take the Sacred Scriptures of Judaism, Christianity, and Islam into consideration, it becomes obvious that the term peace and its equivalents in Hebrew, Greek, and Arabic describe at first an ideal state based on the love/mercy of God to his creation. It is a divine gift that brings inward peace to the individual and outer peace resting upon justice and equality. One main task of Jews, Christians, and Muslims in the history is to find out how to bring down this transcendent ideal upon earth. The volume presents the concept of peace in its different aspects as anchored in the traditions.

of Judaism Christianity and Islam It unfolds commonalities and differences between the three monotheistic religions as well as the manifold discourses about peace within these three traditions The book offers fundamental knowledge about the specific understanding of peace in each one of these traditions their interdependencies and their relationship to secular world views

Muslims Teresa Bernheimer, Andrew Rippin, 2018-09-04 Muslims Their Religious Beliefs and Practices offers a survey of Islamic history and thought from the formative period of the religion to the contemporary period It examines the unique elements which have combined to form Islam in particular the Qur n and perceptions of the Prophet Mu ammad and traces the ways in which these ideas have interacted to influence Islam s path to the present Combining core source materials with coverage of current scholarship and of recent events in the Islamic world Bernheimer and Rippin introduce this hugely significant religion including alternative visions of Islam found in Shi ism and Sufism in a succinct challenging and refreshing way The improved and expanded fifth edition is updated throughout and includes new textboxes With detailed illustrations and a new companion website Muslims is the ideal introduction for students who wish to explore the key issues of Muslims from the Qur n to Islamic feminism to issues of identity Islamophobia and modern visions of Islam

The Concept of Just War in Judaism, Christianity and Islam Georges Tamer, Katja Thörner, 2021-09-07 For Jews Christians and Muslims as for all human beings military conflicts and war remain part of the reality of the world The authoritative writings of Judaism Christianity and Islam namely the Hebrew Bible the New Testament and the Koran as well as the theological and philosophical traditions based on them bear witness to this fact Showing the influence of different historical political situations various views sometimes quite similar sometimes more divergent have developed in the three religions to justify the waging of war under certain circumstances Such views have also been integrated in different ways into legal systems while in certain cases theologies have provide legitimation for military expansion and atrocities The aim of the volume *The Concept of Just War in Judaism Christianity and Islam* is to explore the respective understanding of just war in each one of these three religions and to make their commonalities and differences discursively visible In addition it highlights and explains the significance of the topic to the present time Can the concepts developed in the Jewish Christian and Islamic traditions in order to justify war serve as a foundation for contemporary peace ethics Or do religious arguments always add fuel to the fire in armed conflict The contributions in this volume will help provide answers to these and other socially and politically relevant questions

Islam and Warfare Onder Bakircioglu, 2014-10-30 The question of how Islamic law regulates the notions of just recourse to and just conduct in war has long been the topic of heated controversy and is often subject to oversimplification in scholarship and journalism This book traces the rationale for aggression within the Islamic tradition and assesses the meaning and evolution of the contentious concept of jihad The book reveals that there has never been a unified position on what Islamic warfare tangibly entails due to the complexity of relevant sources and discordant historical dynamics that have shaped the contours of jihad Onder Bakircioglu advocates a dynamic reading of Islamic law and military

tradition one which prioritises the demands of contemporary international relations and considers the meaning and application of jihad as contingent on the socio political forces of each historical epoch This book will be of great interest to scholars and students of international law Islamic law war and security studies and the law of armed conflict **Islam, Islamic Law, and the Turn to Violence** Sam S.
