Processor-Based Self-Test Dimitris Gizopoulos, A. Paschalis, Yervant Zorian, 2013-03-09 Embedded Processor Based Self Test is a guide to self testing strategies for embedded processors Embedded processors are regularly used today in most System on Chips SoCs Testing of microprocessors and embedded processors has always been a challenge because most traditional testing techniques fail when applied to them This is due to the complex sequential structure of processor architectures which consists of high performance datapath units and sophisticated control logic for performance optimization Structured Design for Testability DfT and hardware based self testing techniques which usually have a non trivial impact on a circuit s performance size and power can not be applied without serious consideration and careful incorporation into the processor design Embedded Processor Based Self Test shows how the powerful embedded functionality that processors offer can be utilized as a self testing resource Through a discussion of different strategies the book emphasizes on the emerging area of Software Based Self Testing SBST SBST is based on the idea of execution of embedded software programs to perform self testing of the processor itself and its surrounding blocks in the SoC SBST is a low cost strategy in terms of overhead area

speed power development effort and test application cost as it is applied using low cost low speed test equipment Embedded Processor Based Self Test can be used by designers DfT engineers test practitioners researchers and students working on digital testing and in particular processor and SoC test This book sets the framework for comparisons among different SBST methodologies by discussing key requirements It presents successful applications of SBST to a number of embedded processors of different complexities and instruction set architectures *Computer Buyer's Guide and Handbook* ,2000

Hog Pilots, Blue Water Grunts Robert D. Kaplan,2008-09-30 In *Hog Pilots Blue Water Grunts* acclaimed journalist Robert D Kaplan continues his exploration of the American military s challenging and varied commitments around the world From protecting sea lanes to providing disaster relief to preparing for potential military confrontation with North Korea and Iran Kaplan describes the astonishing vital and often unacknowledged operations regularly performed by American military personnel in the air at sea and on the ground Vivid and illuminating this book takes us deep into the highly technical and exotic cultures of the armed forces telling soldiers stories from the perspective of the troops on the ground *The Return of Marco Polo's World* Robert D. Kaplan,2019-05-21 A bracing assessment of U S foreign policy and world disorder over the past two decades from the bestselling author of *The Revenge of Geography* and *The Coming Anarchy* Kaplan has emerged not only as an eloquent defender of foreign policy realism but as a grand strategist to whom the Pentagon turns for a tour d horizon *The Wall Street Journal* In the late thirteenth century Marco Polo began a decades long trek from Venice to China along the trade route between Europe and Asia known as the Silk Road a foundation of Kublai Khan s sprawling empire Now in the early twenty first century the Chinese regime has proposed a land and maritime Silk Road that duplicates exactly the route Marco Polo traveled Drawing on decades of firsthand experience as a foreign correspondent and military embed for *The Atlantic* Robert D Kaplan outlines the timeless principles that should shape America s role in a turbulent world that encompasses the Chinese challenge From Kaplan s immediate thoughts on President Trump to a frank examination of what will happen in the event of war with North Korea these essays are a vigorous reckoning with the difficult choices the United States will face in the years ahead Praise for *The Return of Marco Polo s World* Elegant and humane a prophecy from an observer with a depressingly accurate record of predictions Bret Stephens *The New York Times Book Review* These essays constitute a truly pathbreaking brilliant synthesis and analysis of geographic political technological and economic trends with far reaching consequences *The Return of Marco Polo s World* is another work by Robert D Kaplan that will be regarded as a classic General David Petraeus U S Army Ret Thoughtful unsettling but not apocalyptic analyses of world affairs flow steadily off the presses and this is a superior example Presented with enough verve and insight to tempt readers to set it aside to reread in a few years Kirkus Review starred review An astute powerfully stated and bracing presentation Booklist This volume compiles sixteen major essays on America s foreign policy from national security commentator Kaplan An overview of thoughtful multilayered positions and perspectives evolving through changing circumstances Publishers Weekly **Oman's Insurgencies** John Peterson,2014-05-22 Oman today is a rapidly modernizing and peaceful country on the fringes of a region

in turmoil It does however have a long history of internal strife In the twentieth century this strife took the form of two internal conflicts The Northern Oman or al Jabal al Akhdar War of the 1950s was a struggle between the forces of the old tribally based Imamate and the newer Sultanate in the northern part of the country In the Dhufar War of the 1960s 70s an anti Sultanate and later Marxist front sought secession in the south J E Peterson takes a detailed look at these two wars in the context of insurgency and counter insurgency warfare He surveys Oman s transition from a strictly traditional regime controlling only parts of the country to a modern inclusive state particularly in terms of security concerns Peterson analyses the development of the Sultanate s successful responses to security challenges especially in the creation and evolution of modern armed forces

Desert Storm Marines Jeff Dacus,2023-09-05 From an historian and columnist in Leatherneck and Armor magazines this is the exciting narrative account based on interviews first person accounts and official documents of a group of Marine reservists during 1991 s Operation Desert Shield Storm In this war thousands of reservists are called up for the first time since the Korean War The Marines of Bravo Company 4th Tank Battalion are hastily trained and sent into action leading the effort to free Kuwait Defeating the Iraqis in battle after battle the Marines reach Kuwait City accomplishing their objective Only a few weeks later they are back home at their former jobs During their deployment they face enemy tanks mines and artillery as well as their own bureaucracy petty jealousies and one officer that fails to live up to his oath Their superior officers make debatable decisions and the men are often unsupported In the end they find the support they need the leadership they lack and a comradeship comparable to historic units like the Band of Brothers the Old Breed Knights Templar and Washington s Immortals

The Archangel Alan Refkin,2024-05-14 The United States most highly classified military weapon code named Vigilant has been stolen from an unmarked Navy ship in the middle of the Atlantic Ocean Consisting of ninety seven missiles each with multiple nuclear warheads housed in a crush proof capsule they are to be lowered to undiscoverable locations in the deepest depths of the Atlantic Ocean However before the system is deployed an unknown group seizes Vigilant making them the third largest nuclear power on Earth Only a handful of people knew about the ship and its route Since most were at the highest level of the government s intelligence community and alphabet agencies the president doesn t trust any of them to investigate what happened Knowing the threat of Armageddon could be used for political and economic blackmail he turns to Nemesis tasking the off the books special operations team led by Matti Moretti to find Vigilant at whatever cost But as he begins the investigation Moretti learns that a triple homicide in Prague is connected to the theft with the investigating detective Juraj Adamik holding the key to discovering Archangel the highly elusive spy believed to be behind what happened Working together with the detective focusing on unmasking Archangel while Moretti finds Vigilant it isn t long before they discover that those who stole America s newest weapon aren t their only adversaries The CIA and FSB also have reasons for wanting Moretti and Adamik s efforts to be unsuccessful and each is willing to go to great lengths to protect what neither wants revealed

All Things Julius Caesar Michael Lovano,2014-12-02

Julius Caesar's life and example have fascinated and motivated generations of people for nearly 2 000 years. This book explores the people, places, events, and institutions that helped define arguably the most famous individual in the history of Rome. Far from being ancient history, Roman history and culture from the time of Julius Caesar and the Roman Empire have surprising parallels with the political strife and societal issues in 21st century life. Interest and awareness have also been bolstered by recent successful Hollywood films as well as television series that depict Roman history. *All Things Julius Caesar: An Encyclopedia of Caesar's World and Legacy* provides a unique reference on topics and themes related to the life and times of Julius Caesar. It offers historically accurate information about what he did and did not do and examines his impact on later eras via images and idealized depictions of him popularized in literature and other media up to the present. The approximately 200 entries in this two-volume set are organized alphabetically according to topic or theme, for example, individuals such as Marc Antony, places such as the province of Gaul, events such as Roman elections or battles in the Civil War, and institutions such as Roman classes, slavery, patrons and clients. The entries cover all the territories of the Roman Empire during Caesar's time, from Britain to Egypt. The set includes primary documents such as excerpts from ancient letters, essays, and biographies, and supplements the text with images and maps. The bibliography provides print and electronic resources suitable for high school and college student research as well as further reading for general audiences.
