

CHARGING PLANE BATTERY

Remove battery from plane and attach to charging cable. (Use included cable only)

Once charged, disconnect battery from cable and reattach to plane. Tuck back into plane and secure door with screws. Remote will beep 1x every couple seconds when LiPo battery runs low.

LANDING GEAR INSTALLATION

Landing gear is recommended when landing on concrete or other smooth paved surfaces to avoid damage.

Firmly insert wheels into slots as shown, ensuring that the longer wheel is inserted in front, with wheel pointing forward. Black wheels should point outward.

FLY MORE!

Why wait for your battery to recharge? Increase your flight time with an extra battery on standby! (Sold separately).

SkyViper 500mAh LiPo battery recommended, or comparable 3.7V LiPo battery with JST connector plug

REMOTE BATTERIES

Insert batteries as shown. Replace door and secure with screws. Remote will beep 2x every couple seconds when batteries run low and need to be replaced.

INSPECTING AND REPLACING DAMAGED PROPS

For best performance, periodically inspect prop blades for damage or debris wrapped around motor shaft. If damaged, firmly hold motor housing and pull damaged blade from shaft. Make note of A or B marking on prop and replace with corresponding new prop.

IMPACT RESISTANT DESIGN

Vector is designed to take the abuse of learning to fly. However, if plane is damaged from severe impact or rough extended use, it can likely be sufficiently repaired with the included mending tape.

TROUBLESHOOTING

Plane is beeping after crash or landing and no longer responds to remote.	Turn plane off then on again to deactivate crash detection (auto-beep) and restore normal plane controls.
Remote beeps 5x quickly during flight, while plane is far away.	You are in danger of flying out of range. Turn back immediately to prevent losing remote connection.
Remote beeps 5x quickly during flight, and plane starts rapid descent.	Plane has flown out of range. Plane auto-lands for safety and starts auto-beeping to help you locate it.
- Plane cannot maintain altitude and drifts to ground. - Plane LED is flashing. - Remote starts to beep 1x every couple seconds.	Plane battery is running low. Recharge LiPo battery to full power.
Remote beeps 2x every couple seconds and/or doesn't connect to plane.	Remote batteries are running low. Replace with fresh batteries.
Plane bounces around or flips over when attempting runway take-off.	Take-off surface may be too bumpy or plane battery may no longer have enough power to complete a runway take-off. Try again with a freshly charged battery, or launch by hand instead.
- Plane does not respond to remote. - Plane starts to fly erratically or becomes difficult to control.	Turn off both remote and plane. Unplug then re-attach plane battery. Ensure remote batteries are new and plane battery is fully charged, then reattempt flight.

SKYROCKET TOYS 30-DAY LIMITED WARRANTY

Skyrocket warrants to the original purchaser that this product is free of defects in materials or workmanship for 30 days from the original purchase. This warranty only applies to defects in material and workmanship and is not valid if the product has been modified or not assembled and maintained per instructions. Proof of defect or malfunction must be provided and verified, along with original sales receipt with date. For quickest resolution, defective product should be returned to the original point of purchase for exchange or refund. If you have questions or difficulties, please contact Skyrocket Toys customer service department at support@skyrockettoys.com.

PLANE CONTAINS A LITHIUM-POLYMER BATTERY 3.7V 500mAh

LiPo batteries have a severe risk of fire and injury if they are improperly handled or misused. They may explode, overheat or ignite. Read all following precautions and instructions regarding the care and use of LiPo batteries. The LiPo battery is only to be used with the drone and charger included with this product.

- Keep away from flammable materials.
- Do not expose to direct sunlight.
- Do not place in a fire or leave in hot places.
- Do not drop or make subject to strong impact.
- Keep dry and away from water.
- The supply terminals are not to be short circuited.
- Never throw into a fire or attempt to open outer case.
- Do not stress, press or drop.
- Never charge unattended. When charging you should always remain in constant observation to monitor the charging process and react to potential problems that may occur.
- Disconnect charging cable if fully charged.
- Never store or charge inside a car in extreme temperatures, since extreme temperature could ignite fire.
- Use caution to avoid puncture. Puncture of battery may cause a fire.

LiPo Battery Disposal: LiPo batteries must be recycled or disposed of properly. They should not be disposed of with other household waste. Check your local laws and regulations for correct recycling and/or battery disposal.

AGES 12+ CE

Vector (model no. 18601) FCC ID: C6318601RX
Remote controller (model no. 18601TX)
FCC ID: C6318601TX

Before each use, an adult should check this product and the LiPo battery to ensure no damage or hazards exist. Plane has rotating blades that move at high speed, posing danger of damage and injury. Pilots are responsible for any actions that result in damage or injury from the improper operation of planes. Do not fly near spectators or animals. Keep spinning props away from fingers, hair, eyes and other body parts. Never leave plane unattended while it is turned on. Read all enclosed information before operating. Please do not remove the frangible cover for any maintenance.

REMOTE AAA BATTERY WARNINGS & SPECIFICATIONS:

- Do not use rechargeable batteries.
- Rechargeable batteries are not to be recharged.
- Do not use old and new batteries (and Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel, metal, etc.) batteries.
- Batteries are to be inserted using correct polarity.
- Remove exhausted batteries as soon as possible and dispose properly.
- Remove all batteries from compartments if device is not used for a long period of time.
- The supply terminals are not to be short circuited.
- Batteries should be replaced by an adult.
- Never throw batteries in a fire or attempt to open the outer casing.

WARNING: Batteries are harmful if swallowed. Please keep away from children. **Battery Disposal:** Dispose of batteries according to the local laws and regulations of your region. Good batteries may be recycled and may be accepted for disposal at your local recycling center. If you are not able to identify the application notes in your area, please check the instructions of the battery manufacturer.

This device complies with PART 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's warranty or negate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, it can be determined by turning the equipment off and on. It is encouraged that user is encouraged to make the following steps to correct the interference: (1) Reorient or relocate the receiving antenna. (2) Increase the distance between the equipment and receiver. (3) Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

Viper Programming Manual

DJ Losen

Viper Programming Manual:

SIMD Programming Manual for Linux and Windows Paul Cockshott, Kenneth Renfrew, 2013-03-09 A number of widely used contemporary processors have instruction set extensions for improved performance in multi media applications The aim is to allow operations to proceed on multiple pixels each clock cycle Such instruction sets have been incorporated both in specialist DSPchips such as the Texas C62xx Texas Instruments 1998 and in general purpose CPU chips like the Intel IA32 Intel 2000 or the AMD K6 Advanced Micro Devices 1999 These instruction set extensions are typically based on the Single Instruction stream Multiple Data stream SIMD model in which a single instruction causes the same mathematical operation to be carried out on several operands or pairs of operands at the same time The level of parallelism supported ranges from two floating point operations at a time on the AMD K6 architecture to 16 byte operations at a time on the Intel P4 architecture Whereas processor architectures are moving towards greater levels of parallelism the most widely used programming languages such as C Java and Delphi are structured around a model of computation in which operations take place on a single value at a time This was appropriate when processors worked this way but has become an impediment to programmers seeking to make use of the performance offered by multi media instruction sets The introduction of SIMD instruction sets Peleg et al

Programming Embedded Systems Michael Barr, Anthony Massa, 2006-10-11 Authored by two of the leading authorities in the field this guide offers readers the knowledge and skills needed to achieve proficiency with embedded software

Homeland Security Law Handbook Blank Rome, Kelley Drye Warren, 2003-10-01 The new Homeland Security Law Handbook provides a comprehensive reference book for business industry and government as well as those faced with the new legal and security issues raised by new public laws a new regulatory framework and a new Department of Homeland Security Written by legal experts from four law firms it covers the major issues involved with homeland security Part I covers broad concepts and cross cutting issues in this emerging field as well as the various legal mandates that now apply to homeland security An analysis summary and political context of homeland security statutes and their subsequent regulatory mandates are also discussed Part II includes detailed discussions of public safety issues including aviation and transportation security port security and chemical security the public health issues of bioterrorism and air food and water supply contamination border and immigration concerns cyber security appropriations grants and contracts insurance and workplace issues and information and disclosure issues in audits Part III covers the creation mandate and organization of the new cabinet department with its powers practices procedures and responsibilities Each of the four Directorates and their organization function major issues and transitional challenges are also analyzed

Technical Abstract Bulletin, **The Cambridge Guide to Second Language Assessment** Christine Coombe, 2012-01-30 The Cambridge Guide to Second Language Assessment aims to present in one volume an up to date guide to the central areas of assessing the second language performance of English by speakers of other languages This volume provides snapshots of significant issues and trends that have shaped language assessment in the past and highlights the current state of our understanding of these issues

[Mars Adapting](#) Francis Hoffman, 2021-03-15 As Clausewitz observed In war more than anywhere else things do not turn out as we expect The essence of war is a competitive reciprocal relationship with an adversary Commanders and institutional leaders must recognize shortfalls and resolve gaps rapidly in the middle of the fog of war The side that reacts best and absorbs faster increases its chances of winning Mars Adapting examines what makes some military organizations better at this contest than others It explores the institutional characteristics or attributes at play in learning quickly Adaptation requires a dynamic process of acquiring knowledge the utilization of that knowledge to alter a unit's skills and the sharing of that learning to other units to integrate and institutionalize better operational practice Mars Adapting explores the internal institutional factors that promote and enable military adaptation It employs four cases drawing upon one from each of the U.S. armed services Each case was an extensive campaign with several cycles of action counteraction In each case the military institution entered the war with an existing mental model of the war they expected to fight For example the U.S. Navy prepared for decades to defeat the Japanese Imperial Navy and had developed carrier based aviation Other capabilities particularly the Fleet submarine were applied as a major adaptation The author establishes a theory called Organizational Learning Capacity that captures the transition of experience and knowledge from individuals into larger and higher levels of each military service through four major steps The learning change cycle is influenced he argues by four institutional attributes leadership organizational culture learning mechanisms and dissemination mechanisms The dynamic interplay of these institutional enablers shaped their ability to perceive and change appropriately

Concise Guide to Software Verification Marieke Huisman, Anton Wijs, 2023-07-24 This textbook overviews the whole spectrum of formal methods and

techniques that are aimed at verifying correctness of software and how they can be used in practice It focuses on techniques whereby the user has some control over the properties that are being checked More specifically it shows a wide range of techniques covering the whole spectrum from abstract system design to implementation from bug finding to full proofs and from techniques that are push button by design and give a yes no answer to techniques that require the user to provide explicit guidance to steer the analysis process Topics and features Covers a broad spectrum of software verification techniques from model checking to annotation checking Provides numerous examples to demonstrate the techniques Focuses on how techniques can be used and the main ideas behind how they work as opposed to how they are implemented Explains strengths and weaknesses of the techniques providing insight into when to use which technique in practice This unique textbook has been written primarily for master s level students in computer science studying embedded systems and specializing in software technology The book will also be of interest for students studying cyber security and data science technology as well as for system or software developers interested in techniques that offer formal guarantees about software

Mathematics of Program Construction Jan L.A. van de Snepscheut,1989-06-07 The papers included in this volume were presented at the Conference on Mathematics of Program Construction held from June 26 to 30 1989 The conference was organized by the Department of Computing Science Groningen University The Netherlands at the occasion of the University s 375th anniversary The creative inspiration of the modern computer has led to the development of new mathematics the mathematics of program construction Initially concerned with the posterior verification of computer programs the mathematics have now matured to the point where they are actively being used for the discovery of elegant solutions to new programming problems Initially concerned specifically with imperative programming the application of mathematical methodologies is now established as an essential part of all programming paradigms functional logic and object oriented programming modularity and type structure etc Initially concerned with software only the mathematics are also finding fruit in hardware design so that the traditional boundaries between the two disciplines have become blurred The varieties of mathematics of program construction are wide ranging They include calculi for the specification of sequential and concurrent programs program transformation and analysis methodologies and formal inference systems for the construction and analysis of programs The mathematics of specification implementation and analysis have become indispensable tools for practical programming

Anti-american Terrorism: From Eisenhower To Trump - A Chronicle Of The Threat And Response: Volume Iii: The Clinton Administration Dennis A Pluchinsky,2025-01-17 A major international security concern that surfaced in the post World War II period was the emergence and evolution of international terrorism The dominant theme in the evolution of this threat has been anti American terrorism No other country has had its overseas interests subjected to the same level lethality diversity and geographic scope of international terrorist activity as the United States This five volume work chronicles the development of this threat through 12 U S presidential administrations over a 70

year period It assesses the terrorist threat in the U S and overseas and how the government responded The expansion of the field of terrorism in academia think tanks institutes and the private sector over this period is also addressed Volumes I and II covered the Eisenhower through to the George H W Bush administrations This volume documents the terrorist threat faced by the Clinton administration 1993 2000 and how it responded It was during this administration that Osama bin Laden and al Qaeda emerged as major terrorism actors and the planning and preparation for the September 11 2001 terrorist attacks took place The 1993 World Trade Center bombing 1993 Battle of Mogadishu 1995 Oklahoma City bombing 1996 Khobar Towers bombing 1998 bombings of the U S Embassies in Kenya and Tanzania and 2000 bombing of the USS Cole missile destroyer also occurred during this period Importantly this book is the first to address in detail a plan neglected by the media and suppressed by the U S government to kill President Clinton during a visit to Manila in November 1996 in which al Qaeda was suspected Executive orders presidential decision directives domestic legislation international treaties special counterterrorism units terrorist renditions presidential findings public diplomacy and counterterrorism actions are also examined
