Crime, Punishment, and Video Games Kristine Levan,Steven Downing,2022-11-22 Moving beyond discussions of potential linkages between violence and video games Crime

Punishment and Video Games examines a broad range of issues related to the representation of crime and deviance within video games and the video game subculture. The context of justice is discussed with respect to traditional criminal justice agencies but also expanded throughout to include issues related to social justice. The text also presents the potential cultural, social, and economic impact of video games. Considering the significant number of video game players from casual to competitive players, these issues have become even more salient in recent years. Regardless of whether someone considers themselves a gamer, video games are undoubtedly relevant to modern society, and this text discusses how the shift in gaming has impacted our perceptions of deviance, crime, and justice. The authors explore past, present, and future manifestations of these connections, considering how the game industry, policy makers, and researchers can work toward a better understanding of how and why video games are an important area of study for criminologists and sociologists, and how games will present new promises and challenges in the years to come.

Crime and Power Pamela Davies, Tanya Wyatt, 2020-11-13

This textbook makes a concerted effort to expose crimes committed by those wielding unfettered personal power and crimes by corporations, business, and states, crimes against human and non-human species, and the environment. It examines an increasingly complex interplay of issues which surely should be at the heart of any criminology programme. This text adopts a fresh and innovative approach to exposing the crimes of the powerful, situating and understanding crimes and victimisations as it does within a framework where questions of structural and personal power in society are key. Fourteen case studies are threaded throughout the book, and this methodology is used as a teaching resource for studying and uncovering the crimes of the powerful. The first three chapters comprehensively contextualise the problems of crime and power and establish the importance of power to understanding crime and victimisation in society. The chapters within Part I and Part II of the book then explore individual and group power respectively. Each of these chapters explores a case study or case examples followed by Pause for Thought questions. Bigger Go Further study questions are posed at the close of these chapters, challenging students to engage in their own case study research to investigate the dynamics of crime and power.
