Vita Di Bordo Beltrame:

Maritime Studies in the Wake of the Byzantine Shipwreck at Yassiada, Turkey Deborah N Carlson, Justin Leidwanger, Sarah M. Kampbell, 2015-07-10 In 2007 a symposium was held at Texas A M University to celebrate the twenty fifth anniversary of Texas A M University Press s publication of the first volume reporting the Yassiada shipwreck site Seventeen papers from that symposium featured in this book broadly illustrate such varied topics as ships and seafaring life maritime trade naval texts commercial cargoes and recent developments in the analysis of the Yassiada ship itself **Sveti Pavao Shipwreck** Carlo Beltrame, Sauro Gelichi, Igor Miholjek, 2014-07-31 Between 2007 and 2012 the Department for Underwater Archaeology of the Croatian Conservation Institute from Zagreb and the Department of Humanistic Studies of the Ca Foscari University of Venice collaborated in the recording underwater excavation and analysis of the unusually well preserved wreck of a 16th century Venetian merchantman in the Sveti Pavao shallow off the southern shore of the island of Mljet Croatia The shipwreck preserved many personal possessions of the crew as well as a number of bronze artillery pieces and the remains of a cargo of luxury and richly decorated ceramic material from Iznik and other oriental workshops Although the excavation is not complete this volume presents the results of the project so far The methodological and technical aspects of the underwater investigation of the site mainly by photogrammetry are described the historical and archaeological context of navigation in the late Medieval period in the eastern Mediterranean discussed and the recovered artefacts described and catalogued in detail together with the remains of the ship and its equipment that because of depth and of problems of conservation have been left in situ The conservation and restoration of the finds are described in an appendix *The Hidden Hand of Underwater Cultural Heritage* Elena Perez-Alvaro, 2024-12-23 This book acts as a cautionary tale urging society to proactively invest in forging a path towards the future by drawing upon the insights gleaned from the past Underwater cultural heritage is not merely a collection of broken ruins on the ocean floor it holds the potential to provide strategic intelligence into global security challenges and future uncertainties By understanding and valuing the unknown force of underwater cultural heritage we can anticipate and navigate potential future challenges harnessing its hidden power to shape the course of history Insularity, Identity and Epigraphy in the Roman World Javier Velaza, 2017-05-11 This book explores the subject of islands their essence and identity their isolation and their relationships in the Ancient world It investigates Greek and Roman concepts of insularity and their practical consequences for the political economic and social life of the Empire The contributions examine whether being related to an island was an externally or internally distinctive feature and whether a tension between insularity and globalisation can be detected in this period The book also looks at whether there is an insular material culture an island based approach to sacredness or an island based category of epigraphy *Roman Seas* Justin Leidwanger, 2020 Drawing together maritime landscape studies and network analysis this book offers an archaeological exploration of seaborne economy and connectivity across the Roman eastern Mediterranean where the

material record of shipwrecks and ports reveals multiple evolving regional and interregional systems of interaction *Lived Spaces in Late Antiquity* Carlos Machado, Rowan Munneer, Rebecca Sweetman, 2024-04-30 This volume considers lived space as a scholarly approach to the past showing how spatial approaches can present innovative views of the world of Late Antiquity integrating social economic and cultural developments and putting centre stage this fundamental dimension of social life Bringing together an international group of scholars working on areas as diverse as Britain the Iberian Peninsula Jordan and the Horn of Africa this book includes burgeoning fields of study such as lived spaces in the context of ships and seafaring during this period Chapters investigate the history function and use of different spaces in their own right and identify the social and historical logic presiding over continuity and or change They also explore the fluidity of lived space in both its physical and conceptual dimensions analysing issues like agency and intentionality as well as meaning and social relations Space is the fundamental dimension of social life the arena where it unfolds and the stage where social values and hierarchies are represented analysis of space allows us to understand history through different means of shaping occupying and controlling space Considering Late Antiquity through a spatial perspective offers a complex and stimulating picture of this pivotal period and this volume provides avenues for the development of further research and discussion in this area *Lived Spaces in Late Antiquity* is a fascinating resource for students and scholars interested in space and spatiality in the late antique world as well as archaeology classical studies and late antique studies more generally APM - Archeologia Postmedievale, 18, 2014 - Archeologia dei relitti postmedievali / Archaeology of Post-Medieval Shipwrecks Carlo Beltrame, 2014-12-11 *Archeologia dei relitti postmedievali* Archaeology of Post Medieval Shipwrecks a cura di Carlo Beltrame Il volume che raccoglie undici contributi di archeologi marittimi di molti paesi ha l'obiettivo di accendere i riflettori sulle enormi potenzialità dei relitti di età storica mettendo a confronto da un lato approcci diversi di ambito mediterraneo ma anche statunitense australiano e nord europeo dall'altro contesti archeologici con caratteristiche altrettanto diverse per l'ambiente di giacitura e per l'impiego civile o militare dell'imbarcazione Gli studi diacronici ma incentrati sul Cinquecento e sull'Ottocento coprono le varie sfaccettature dell'indagine storica dei relitti di età postmedievale quali la costruzione navale il commercio e la vita di bordo ma anche aspetti di tipo squisitamente metodologico quali l'archeologia sperimentale navale Si tratta di una novità assoluta per l'editoria scientifica italiana in cui questo particolare ma molto promettente ambito della ricerca archeologica non aveva ancora trovato adeguato spazio **Reconstructing a Maritime Past** Matthew Harpster, 2022-12-30 *Reconstructing a Maritime Past* argues that rather than applying geo ethnic labels to shipwrecks to describe Greek or Roman seafaring a more intriguing alternative emphasizes a maritime culture's valorization of the Mediterranean Sea Doing so creates new questions and research agendas to understand the past human relationship with the sea This study makes this argument in three sections Chapters 1 and 2 contrasting intellectual histories of maritime archaeological interpretive approaches common in Northern Europe and the Mediterranean propose that the former

perspective which embodies contemporary and fluid perceptions of culture is a better theoretical framework for future research Chapters 3 5 re interpret the corpus of submerged sites in the Mediterranean Sea with this approach arguing that this dataset does not represent Phoenician Muslim or Byzantine seafaring but the practices of a maritime culture Key to this section is the author s method that utilizes superimposed polygons to model patterns of maritime activity generating centennial results at different scales Having built the models of a maritime culture s valorization of the Mediterranean Sea Chapter 6 contains the first comparisons of these models to other datasets questioning the relevance of textual media to understand maritime activity while finding closer analogues with other archaeological corpora By deconstructing interpretive methods in maritime archaeology offering a new synthesizing interpretive approach that is scalable and decoupled from past perceptions and critically examining the applicability of various media to illuminate the past maritime experience this book will appeal to scholars at various stages of their careers

Cultures and Practices of Coexistence from the Thirteenth Through the Seventeenth Centuries Marco Folin, Antonio Musarra, 2020-09-06 This book focuses on the ethnically composite heterogeneous mixed nature of the Mediterranean cities and their cultural heritage between the late middle ages and early modern times How did it affect the cohabitation among different people and cultures on the urban scene How did it mold the shape and image of cities that were crossroads of encounters but also the arena of conflict and exclusion The 13 case studies collected in this volume address these issues by exploring the traces left by centuries of interethnic porosity on the tangible and intangible heritage of cities such as Acre and Cyprus Genoa and Venice Rome and Istanbul Cordoba and Tarragona
