The Safety Promise and Challenge of Automotive Electronics National Research Council (U.S.). Committee on Electronic Vehicle Controls and Unintended Acceleration, 2012 TRB has released the final version of TRB Special Report 308 The Safety Promise and Challenge of Automotive Electronics Insights from Unintended Acceleration which examines how the National Highway Traffic Safety Administration NHTSA regulatory research and defect investigation programs can be strengthened to meet the safety assurance and oversight challenges arising from the expanding functionality and use of automotive electronics The report gives particular attention to the NHTSA response to consumer complaints of vehicles accelerating unintentionally and to concerns that faulty electronic systems may have been to blame The committee that produced the report found that the increasingly capable and complex electronics systems being added to automobiles present many opportunities for making driving safer but also present new demands for ensuring their

safe performance These safety assurance demands pertain both to the automotive industry development and deployment of electronics systems and to the safety oversight role of NHTSA With regard to the latter the committee recommends that NHTSA give explicit consideration to the oversight challenges arising from automotive electronics and that the agency develop and articulate a long term strategy for meeting these challenges Provided by publisher **Professional Work** Elizabeth Gorman, Steven P Vallas, 2020-10-15 Current challenges to the legitimacy of expert knowledge has caused professional control over knowledge autonomy at work orientation toward public service and social status to have declined In this collection scholars examine the nature of these changes and how they have altered the experience of professional workers **INTRODUCTION TO COMMERCIAL LAW IN COMPARATIVE PERSPECTIVE INDONESIA AND**
