Solidariedade e organizações Genauto Carvalho de França Filho, Philippe Eynaud, 2020-01-01 Este livro parte de um diagnóstico crítico sobre a dupla insustentabilidade que tem caracterizado a dinâmica do desenvolvimento das sociedades contemporâneas a crise ambiental e o aumento das desigualdades. Tais condições têm revelado um déficit de solidariedade tanto na relação dos seres humanos com a natureza quanto na relação das pessoas entre si, assim que o livro funda sua reflexão num paradoxo importante relativo ao lugar da solidariedade nas sociedades atuais: nunca antes houve tanta necessidade de fortalecê-la tanto no plano nacional quanto internacional e a reflexão a seu propósito jamais foi tão eludida, tão desconhecida para não dizer tão desacreditada. Após salientar como a solidariedade foi invisibilizada na construção do conhecimento sobre as organizações e a gestão, o livro explora a emergência de práticas organizacionais inovadoras visando responder aos dilemas dessa dupla insustentabilidade. São os desafios e potencialidades contidos numa outra economia que nos convida a refletir sobre uma outra gestão.

Women Entrepreneurship in Family Business Vanessa Ratten, Leo-Paul Dana, Veland Ramadani, 2017-08-04 The purpose of this book is to promote discussion about educational objectives generally and objectives in the teaching of educational psychology in particular. To this end, Part 1 contains a review of the literature concerned with these two subjects and also reports on investigations into the views of British students, teachers, college staffs and educational psychologists on the question of the objectives of educational psychology in teacher preparation. A comprehensive bibliography is provided. A further important section of Part 1 proposes a method of systematizing teaching objectives and suggests a heuristic device for the generation of objectives at different levels of conceptual generality and complexity of learning. An example of this model in the field of educational psychology is presented which illustrates the general approach to the generation of teaching objectives and proposes a specific approach to the production of teaching objectives in educational psychology. In Part 2, a selection of readings in the fields of objectives and educational psychology provides the reader with some of the key source material referred to in Part 1. As well as being a valuable and stimulating addition to the current debate on the specifying of educational objectives, the arguments in this book about the role of educational psychology in teacher preparation raise some fundamental questions for those concerned with teacher education.

Global Brands Teresa da Silva Lopes, 2007-09-24 In a world focused on

science and new technology brands help to explain why several of the world's multinational corporations have little to do with either. Rather, they are old firms with little critical investment in patents or copyrights. For these firms, the critical intellectual property is trademarks. Global Brands first published in 2007 explains how the world's largest multinationals in alcoholic beverages achieved global leadership, considers the predominant corporate governance structures for such firms, and looks at why these firms form alliances with direct competitors. Brands also determine the waves of mergers and acquisitions in the beverage industry. Global Brands contrasts with existing studies by providing a new dimension to the literature on the growth of multinationals through the focus on brands using an institutional and evolutionary approach based on original and published sources about the industry and the firms. **Bulletin of the Atomic Scientists**, 1969-02

It was assumed that native societies everywhere would be swept away by the forward march of the West and its own peculiar brand of progress and civilization. Nothing could be further from the truth. Indigenous social movements wield new power, and groups as diverse as Australian Aborigines, Ecuadorian Quichuas, and New Zealand Maoris have found their own distinctive and assertive ways of living in the present world. *Indigenous Experience Today* draws together essays by prominent scholars in anthropology and other fields examining the varied face of indigenous politics in Bolivia, Botswana, Canada, Chile, China, Indonesia, and the United States, amongst others. The book challenges accepted notions of indigeneity as it examines the transnational dynamics of contemporary native culture and politics around the world. **Resources in education**, 1991
