Farm City Novella Carpenter, 2009-06-11 Urban and rural collide in this wry inspiring memoir of a woman who turned a vacant lot in downtown Oakland into a thriving farm Novella Carpenter loves cities the culture the crowds the energy At the same time she can't shake the fact that she is the daughter of two back to the land hippies who taught her to love nature and eat vegetables Ambivalent about repeating her parents' disastrous mistakes yet drawn to the idea of backyard self sufficiency Carpenter decided that it might be possible to have it both ways a homegrown vegetable plot as well as museums bars concerts and a twenty four hour convenience mart mere minutes away Especially when she moved to a ramshackle house in inner city Oakland and discovered a weed choked garbage strewn abandoned lot next door She closed her eyes and pictured heirloom tomatoes a beehive and a chicken coop What started out as a few egg laying chickens led to turkeys geese and ducks Soon some rabbits joined the fun then two three hundred pound pigs And no these charming and eccentric animals weren't pets she was a farmer not a zookeeper Novella was raising these animals for dinner Novella Carpenter's corner of downtown Oakland is populated by unforgettable characters Lana anal spelled backward she reminds us runs a speakeasy across the street and refuses to hurt even a fly let alone condone raising turkeys for Thanksgiving Bobby the homeless man who collects cars and car parts just outside the farm is an invaluable

neighborhood concierge The turkeys Harold and Maude tend to escape on a daily basis to cavort with the prostitutes hanging around just off the highway nearby Every day on this strange and beautiful farm urban meets rural in the most surprising ways For anyone who has ever grown herbs on their windowsill tomatoes on their fire escape or obsessed over the offerings at the local farmers market Carpenter s story will capture your heart And if you ve ever considered leaving it all behind to become a farmer outside the city limits or looked at the abandoned lot next door with a gleam in your eye consider this both a cautionary tale and a full throated call to action Farm City is an unforgettably charming memoir full of hilarious moments fascinating farmers tips and a great deal of heart It is also a moving meditation on urban life versus the natural world and what we have given up to live the way we do **Chefs on the Farm** Shannon Borg,Lora Lea Misterly,Karen Jurgensen,2008

members The Taste of Place Amy B. Trubek, 2008-05-05 While much has been written about the concept of terroir as it relates to wine this book expands the concept into cuisine and culture more broadly Bringing together stories of people farming cooking and eating the author focuses on a series of examples ranging from shagbark hickory nuts in Wisconsin to wines from northern California **Southwest France** ,2003 Complemented by travel advice maps accommodation listings and site descriptions a collection of essays and articles on the region of southwestern France by noted authors travel writers and journalists is organized thematically under such headings as Current Events Food and Drink and Museums and Monuments Original 15 000 first printing **Nutritionism** Gyorgy Scrinis, 2013-06-18 Popularized by Michael Pollan in his best selling *In Defense of Food* Gyorgy Scrinis's concept of nutritionism refers to the reductive understanding of nutrients as the key indicators of healthy food an approach that has dominated nutrition science dietary advice and food marketing Scrinis argues this ideology has narrowed and in some cases distorted our appreciation of food quality such that even highly processed foods may be perceived as healthful depending on their content of good or bad nutrients Investigating the butter versus margarine debate the battle between low fat low carb and other weight loss diets and the food industry's strategic promotion of nutritionally enhanced foods Scrinis reveals the scientific social and economic factors driving our modern fascination with nutrition Scrinis develops an original framework and terminology for analyzing the characteristics and consequences of nutritionism since the late nineteenth century He begins with the era of quantification in which the idea of protective nutrients caloric reductionism and vitamins curative effects took shape He follows with the era of good and bad nutritionism which set nutricentric dietary guidelines and defined the parameters of unhealthy nutrients and concludes with our current era of functional nutritionism in which the focus has shifted to targeted nutrients superfoods and optimal diets Scrinis's research underscores the critical role of nutrition science and dietary advice in shaping our relationship to food and our bodies and in heightening our nutritional anxieties He ultimately shows how nutritionism has aligned the demands and perceived needs of consumers with the commercial interests of food manufacturers and corporations Scrinis also offers an alternative paradigm for assessing the healthfulness of foods the food quality paradigm that privileges food production and processing quality cultural traditional knowledge and sensual practical experience and promotes less reductive forms of nutrition research and dietary advice The Business of Food Gary Allen, Ken Albala, 2007-10-30 The business of food and drink is for better and worse the business of our nation and our planet and to most consumers how it works remains largely a mystery This encyclopedia takes readers as consumers behind the scenes of the food and drink industries The contributors come from a wide range of fields and the scope of this encyclopedia is broad covering from food companies and brands to the environment health science and technology culture finance and more The more than 150 essay entries also cover those issues that have been and continue to be of perennial importance Historical context is emphasized and the focus is mainly on business in the United States Most entries include Further Reading The frontmatter includes an Alphabetical List of Entries
