The Problem with Education Technology (Hint: It's Not the Technology) Ben Fink, Robin Brown, 2016-02-01 Education is in crisis at least so we hear And at the center of this crisis is technology New technologies like computer based classroom instruction online K 12 schools MOOCs massive open online courses and automated essay scoring may be our last great hope or the greatest threat we have ever faced In *The Problem with Education Technology* Ben Fink and Robin Brown look behind the hype to explain the problems and potential of these technologies Focusing on the case of automated essay scoring they explain the technology how it works and what it does and doesn't do They explain its origins its evolution both in the classroom and in our culture and the controversy that surrounds it Most significantly they expose the real problem the complicity of teachers and curriculum builders in creating an education system so mechanical that machines can in fact often replace humans and how teachers students and other citizens can work together to solve it Offering a new perspective on the change that educators can hope organize and lobby for *The Problem with Education Technology* challenges teachers and activists on our side even as it provides new evidence to counter the profit making labor saving logics that drive the current push for technology in the classroom

Base-1 method: A structural-functional approach to word, sentence and discourse readability Bernd Nuss, 2018 Text readability is at the core of successful reading instruction and language learning To counteract the challenges of complex reading content text leveling is a vital necessity for readers with limited language access A transdisciplinary analysis of reading development and linguistic interrelations builds the theoretical foundation of the base 1 method This method focuses solely on structural and functional text elements on the word sentence and cohesion level But this book also discusses the significance of other prevalent readability factors such as the reader's

language knowledge or socio cultural background The base 1 method is designed to level early reading texts in German and other alphabetic languages Experimental tests with a German immersion population has led to a preliminary calibration to demonstrate the validity of this approach Bernd Nuss ist erfahrener Immersionslehrer in verschiedenen Programmen die sich über Nord Zentral und Südamerika erstrecken An der E E Waddell Language Academy wirkt er schulintern als Immersion Facilitator kooperiert mit Bildungsorganisationen und betreut die Praktika von Gaststudierenden an der Schule Bernd Nuss has worked as an educator and facilitator in English and German language immersion programs all over the Americas and in Europe In this capacity he has also been collaborating as a researcher with universities and other educational institutions in Europe Asia and the USA Handbook of Integrative Developmental Science Michael F. Mascolo, Thomas R. Bidell, 2020-03-20 Although integrative conceptions of development have been gaining increasing interest there have been few attempts to bring together the various threads of this emerging trend The Handbook of Integrative Developmental Science seeks ways to bring together classic and contemporary theory and research in developmental psychology with an eye toward building increasingly integrated theoretical and empirical frameworks It does so in the form of a festschrift for Kurt Fischer whose life and work have both inspired and exemplified integrative approaches to development Building upon and inspired by the comprehensive scope of Fischer's Dynamic Skill Theory this book examines what an integrated theory of psychological development might look like Bringing together the work of prominent integrative thinkers the volume begins with an examination of philosophical presuppositions of integrative approaches to development It then shows how Dynamic Skill Theory provides an example of an integrative model of development After examining the question of the nature of integrative developmental methodology the volume examines the nature of developmental change processes as well as pathways and processes in the development of psychological structures both within and between psychological domains The team of expert contributors cover a range of psychological domains including the macro and micro development of thought feeling motivation self intersubjectivity social relations personality and other integrative processes It ends with a set of prescriptions for the further elaboration of integrative developmental theory and a tribute to Kurt Fischer and his influence on developmental psychology This book will be essential reading for graduate students and researchers of developmental psychology and human development specifically developmental science
