

# SMART GOALS

## For Math Teachers

- I will implement one new teaching strategy every two months to help students get better at their math skills.
- I will incorporate games and activities for building skills of conceptual math into one math lesson every week to build student interest and engagement.
- 100% of my students will be using educational math apps and interactive online tools at school for 15 minutes two times per week to support their math skills.
- I will sign up for a three-month educational course to improve my math teaching skills by (date).
- Every three months, I will share an update with parents through email or a phone call to inform them about their child's progress in math and involve them in their child's education. I will count each parent's response as a measure of achieving the goal.
