Smart Serve Cheat Sheet 2013:

The Palgrave Handbook of Service Management Bo Edvardsson, Bård Tronvoll, 2022-05-24 This handbook provides an innovative thorough overview of service management. It draws together an impressive international group of leading scholars who offer a truly global perspective exploring current literature and laying out guidance for future research. Beginning with defining service as a perspective on value creation and service management as a set of organizational competencies for enabling and realizing value creation through service, it then moves on to follow the evolution of service research. From there, the book is structured into six main themes: perspectives on service management, service strategy, service leadership and transition, service design and innovation, service interaction, quality and operations, and service management and technology. This book is valuable reading for academics, lecturers, and students studying service management, operations management, and service research.

Climate-Smart and Resilient Food Systems and Security Mohamed Behnassi, Abdulmalek A. Al-Shaikh, Riaz Hussain Qureshi, Mirza Barjees Baig, Turki Khalufa A. Faraj, 2024-09-17 This contributed book, as a part of a series of CERES publications, contributes to the scientific debate about the interlinkages between climate change, environment, and food systems. It highlights the opportunities to accelerate the transformation of such systems within the perspective of sustainable, inclusive, and climate-smart practices. Most chapters are based on empirical research, particularly done in vulnerable and resource-constrained countries from the Global South, such as India, Kenya, Pakistan, South Asia, Sri Lanka, and Vietnam, and provide policy-oriented inputs and recommendations to guide change processes at multiple scales. This project has implications for research, innovation, and policy design.
