Java By Comparison Simon Harrer,Jörg Lenhard,Linus

Dietz,2018-03-22 Write code that's clean, concise and to the point; code that others will read with pleasure and reuse. Comparing your code to that of expert programmers is a great way to improve your coding skills. Get hands-on advice to level up your coding style through small and understandable examples that compare flawed code to an improved solution. Discover handy tips and tricks as well as common bugs an experienced Java programmer needs to know. Make your way from a Java novice to a master craftsman. This book is a useful companion for anyone learning to write clean Java code. The authors introduce you to the fundamentals of becoming a software craftsman by comparing pieces of problematic code with an improved version to help you to develop a sense for clean code. This unique before and after approach teaches you to create clean Java code. Learn to keep your booleans in check, dodge formatting bugs, get rid of magic numbers and use the right style of iteration. Write informative comments when needed but avoid them when they are not. Improve the understandability of your code for others by following conventions and naming your objects accurately. Make your programs more robust with intelligent exception handling and learn to assert that everything works as expected using JUnit5 as your testing framework. Impress your peers with an elegant functional programming style and clear-cut object-oriented class design. Writing excellent code isn't just about implementing the functionality. It's about the small, important details that make your code more readable, maintainable, flexible, robust and faster. Java by Comparison teaches you to spot these details and trains you to become a better programmer. What You Need: You need a Java 8 compiler, a text editor and a fresh mind. That's it. [Translating Texts](#) Brian Baer, Christopher Mellinger, 2019-11-22 Clear and accessible, this textbook provides a step-by-step guide to textual analysis for beginning translators and translation students. Covering a variety of text types including business letters, recipes and museum guides in six languages (Chinese, English, French, German, Russian and Spanish), this book presents authentic research-based materials to support translation in any of these languages. *Translating Texts* will provide beginning translators with greater text awareness, a critical skill for professional translators. Including discussions of the key theoretical texts underlying this text-centred approach to translation and sample rubrics for self-assessment, this coursebook also provides easy instructions for creating additional corpora for other text types and in other languages. Ideal for both language-neutral and language-specific classroom settings, this is an essential text for undergraduate and graduate-level programs in modern languages and translation. Additional resources are available on the Routledge Translation Studies Portal: <http://routledgetranslationstudiesportal.com> *Amazon Fire TV For Dummies* Paul McFedries, 2020-01-09 Enjoy more entertainment with this friendly user guide to making the most of Amazon Fire TV.
