World's Work and Play ,1905 **Chinese Intellectual Property and Technology Laws** Rohan Kariyawasam,2011-01-01 The rapid evolution of China from an emerging to a mature intellectual property jurisdiction has far reaching implications for the law policy and practice of IP and their links with competition and technology law Produced in the year China rose to fourth rank globally as user of the international patent system this volume is an invaluable guide for the policymaker the analyst and the practitioner alike setting a thorough exposition of the substantive law and its application within a broader policy context and offering a comprehensive timely overview of an IP system just at the time it begins to assume central significance on the world stage Antony Taubman Director IP Division WTO This edited volume offers an

excellent comprehensive overview of China's intellectual property and technology laws. The eminent contributors to this volume have played important roles in shaping China's IP system and in tackling the many challenges confronting it. By making their views of the system readily accessible to an English audience, this volume will undoubtedly add to our understanding of the legal protections and challenges facing innovation industries in China. Mark Wu, Harvard Law School, US.

The pioneering studies in this book examine the fundamental role of intellectual property and technology laws as China is moving from made in China to created in China. This book also helps us to understand about the interplay between China's intellectual property protection system and the potential for transition of China's economy and provides numerous means to deal with the legislative difficulties in China's innovation-oriented strategy. Wu Handong, Zhongnan University of Economics and Law, China. Written by some of China's leading academic experts and with a foreword by the former Chief Justice of the IP Tribunal of China's Supreme People's Court, this book combines for the very first time a review of both Chinese intellectual property and technology laws in a single volume in English. The book initially focuses on recent amendments to the laws of copyright, trademarks, patents, before moving on to discuss unfair competition and trade secrets and the protection of intellectual property over electronic networks. Other chapters cover the regulation of digital networks and telecommunications, IT and E-commerce, the new antimonopoly law and competition, and China's position on the TRIPS agreement. Of special note is a chapter written by in-house Counsel and the Chairman of the Quality Brands Protection Committee, a coalition of well-known multinational brands reviewing both brand protection and practical enforcement of intellectual property in China. This book will appeal to scholars and postgraduate students in commercial law, especially in IP, trade competition and technology, Chinese studies and business, as well as regulators, international agencies and law firms. Management consultancy and accounting firms, banks and investment firms will also find this book invaluable.

Jesus Goes to Washington Douglas J. Miller, 2013-10-10. This book explores how Christian spirituality and the political ethic of Christianity's founder, Jesus of Nazareth, might contribute to the most looming emergency of our day: ending human misery while reducing the planet's woes. It advances the new ethical paradigm of sustainability that bespeaks the longings of this remarkable Jewish peasant who elbowed his way into a world filled with social misery, shame and land exploitation. Donning the mantle of a prophet-lawgiver, he disgraced the justifying ethic of the prevailing Roman oligarchies that finds its active counterpart in today's political landscape. He offered a different political path: a Progressive one that led to respecting Creation and all its inhabitants. Jesus helps us to cherish humane values and he urges us all: Democrats and Republicans, Independents and Greens, religious and nonreligious, to be united in fulfilling them. *Jesus Goes to Washington* celebrates the international Earth Charter, the most significant moral document of our generation. Given the urgency of world calamity, the charter implores us to muster every spiritual force at our disposal for immediate action. Being history's most influential moral authority, Jesus provides the needed impetus for achieving a just and sustainable
