Charles Leclerc Adam Hay-Nicholls, 2023-08-03 From acclaimed journalist Adam Hay Nicholls, the very first biography of rising star Charles Leclerc published to mark the start of the 2023 Formula One season. Few of the drivers on the F1 grid have the racing pedigree of Charles Leclerc. Widely regarded as one of the sport's hottest prospects, he was crowned F3 and then F2 champion in back-to-back seasons before he made his F1 debut with Sauber in 2018. Now firmly established as Ferrari's great hope, following in the footsteps of legends Alberto Ascari, Niki Lauda and Michael Schumacher, Leclerc has his eyes set on becoming world champion. Born in Monaco to a family of comparatively modest means, Leclerc remembers playing with toy cars on a friend's balcony as the best drivers in the world whizzed around the Monte Carlo circuit on the streets below. This early experience inspired him to get behind the wheel, encouraged by his father Hervé, and so began his meteoric rise in the sport. Along the way, he lost his father, his godfather and his best friend, all racing drivers, and this gave Leclerc the inner steel to become a winner. Writer Adam Hay Nicholls, who has spent much of his career in the Formula One paddock, provides the inside track on this rising star, recounting how he has taken the racing world by storm. And as Leclerc's Ferrari is beginning to fire on all cylinders, will he beat his old rival and adversary Max Verstappen to the world title?

Autopia Peter Wollen, Joe Kerr, 2002 The reach of the car today is almost universal and its effect on landscapes, cityscapes, cultures, indeed on the very fabric of the modern world, is profound. Cars have brought benefits to individuals in terms of mobility and expanded horizons, but the cost has been very high in terms of damage to the environment and the consumption of precious resources. Despite the growing belief that a Faustian price is now being paid for the freedom cars have bestowed on us, we are none the less manufacturing them in ever greater numbers. *Autopia* is the first book to explore the culture of the motor car in the widest possible sense. Featuring newly commissioned essays by writers, critics, historians, artists and film makers, as well as reprinting key texts, it examines the effect of the car throughout the world, including the USA, Western and Eastern Europe, Japan, China.

Cuba India and South Africa In this book the car is treated neither as a technological fetish object nor as an instrument of danger Instead it is examined as a hugely important determinant of 20th century culture neither wholly good nor an unmitigated disaster and certainly endlessly fascinating Contributors include Michael Bracewell Ziauddin Sardar Al Rees Martin Pawley Donald Richie and Peter Hamilton Key texts by Marshall Berman Jane Jacobs Roland Barthes Marc Auge and others
