**Target Markets** Andrea Berger,2017-07-14 A UN arms embargo has been in place against North Korea for nearly a decade as part of a broader sanctions regime designed to deny it the goods and funds needed to fuel its nuclear weapons and ballistic missile programmes Yet despite these sanctions a host of state and non state actors continue to buy arms material and services from Pyongyang and inject funds into the same coffers that drive North Korea s nuclear and missile development While some of North Korea s military customers in the sanctions era since 2006 are well known such as Iran Syria and Burma Pyongyang s wider client base receives little international attention North Korea has continued to enjoy access to other defence markets across Africa and the Middle East The drivers of these clients decisions to buy weapons and related goods from North Korea are rarely discussed This gap in analysis is essential to fill If tailored and effective approaches are to be developed to convince North Korea s customers to buy elsewhere they must be based on a sound understanding of the considerations that motivated the client to turn to Pyongyang in the first place

comprehensively analyses the available information on these procurement decisions. It concludes contrary to conventional wisdom that the reasons that customers buy weapons and related goods and services from North Korea vary often greatly. This study also concludes that one of the greatest achievements of the UN sanctions regime to date has been to deny North Korea access to modern conventional weapons technology that it can learn to manufacture at home and sell on to its clients around the world. Without more contemporary wares to tempt foreign buyers, North Korea will likely continue to see its client list for weapons and related goods and services shrinking. *Routledge Handbook of Contemporary South Korea* Sojin Lim, Niki J.P. Alsford, 2021-08-30. The Routledge Handbook of Contemporary South Korea offers a ground breaking study of the socio political development of the Korean peninsula in the contemporary period. Written by an international team of scholars and experts, contributions to this book address key intellectual questions in the development of Korean studies, projecting new ways of thinking about how international systems can be organised and how local societies adapt to global challenges. Academically rigorous, each chapter defines current research and lends the reader greater understanding of the social, cultural, economic and political developments of South Korea, ranging from chapters on the Korean Wave to relations with North Korea and the Korean language overseas. The volume is divided into eight sections, each representing a focused area of inquiry: socio political history, contemporary politics, political economy and development, society, culture, international relations, security and diplomacy, South Korea in international education. This handbook provides an interdisciplinary and comprehensive account of contemporary South Korea. It will be of great interest to students and scholars of Korean history, politics and international relations, culture and society, and will also appeal to policy makers interested in the Indo Asia Pacific region. *OECD Skills Studies: OECD Skills Strategy Implementation Guidance for Korea: Strengthening the Governance of Adult Learning* OECD, 2021-06-04. Korea has become a powerful force in global sport, with South Korea finishing fifth in the medals table at London 2012 and hosting the Winter Olympics in 2018. This book brings together scholars from disciplines including sport history, sociology, journalism, economics, sport development and sport management to explore the significance of sport in contemporary Korea. Presenting a variety of international perspectives, it plots the dynamic evolution of sport in Korea and envisions the possibilities for its future. Each chapter focuses on a key topic of current relevance, such as sport in the context of shifting relations between North and South Korea or the role of sport in the expression of Korean nationalism. Arguing that individuals, institutions, businesses and governments have actively leveraged or exploited sport to influence developments in various social, economic, cultural and political arenas, this book sheds new light on the importance of sport as a catalyst for change in Korea.
