The Fluvial Imagination Colin Hoag, 2022-11-08 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Landlocked and surrounded by South Africa on all sides, the mountain kingdom of Lesotho became the world's first water exporting country when it signed a 1986 treaty with its powerful neighbor. An elaborate network of dams and tunnels now carries water to Johannesburg, the subcontinent's water-stressed economic epicenter. Hopes that receipts from water sales could improve

Lesotho's fortunes however have clashed with fears that soil erosion from overgrazing livestock could fill its reservoirs with sediment. In this wide ranging and deeply researched book Colin Hoag shows how producing water commodities incites a fluvial imagination. Engineering water security for urban South Africa draws attention ever further into Lesotho's rural upstream catchments from reservoirs to the soils and vegetation above them and even to the social lives of herders at remote livestock posts. As we enter our planet's water export era Lesotho exposes the possibilities and perils ahead. *Limpopo Life* Anneli Ekblom, Michel Notelid, 2025-06-20. *Limpopo Life* introduces the reader to the material culture, oral histories and the negotiation of conservation and landscape in an area now known as Limpopo National Park. Introducing the archaeology of a region that has not been surveyed or discussed, this book connects to the archaeology, history, heritage and conservation discussions in the southern African region as a whole. Vegetation history and paleoecology are combined with archaeological surveys and excavations, written sources, oral histories and travelogues to draw a picture of the diverse landscape of the Limpopo region. Intermixed within this narrative are sections that focus on an individual species, a life history or an event providing a view of the complex and dynamic interactions. The role of humans in this diverse environment and how they have co-evolved with other species, shaping each other's destinies in a consequential and accidental way, is outlined. This book will be of interest to researchers and students interested in the archaeology, heritage and conservation of Mozambique, Zimbabwe and northern South Africa. It will also be of relevance to readers interested in the social history of the Limpopo and Kruger National Parks and this cross border area.
