Honorof,2021-10-23 NEW COVID 19 CHAPTER Polio is NOT even contagious or infectious never proven to be There is NO proof Polio is caused by a virus There is NO evidence that anyone caught polio from another person in the family There is NO evidence that any nurse or doctor caught polio from a patient Sheri Nakken RN MA Listed below are public health statistics U S Public Health Reports from the four states which adopted compulsory vaccination and the figures from Los Angeles California similar results in other states available from books listed at the back of this booklet TENNESSEE 1958 119 cases of polio before compulsory shots 1959 386 cases of polio after compulsory shots OHIO 1958 17 cases of polio before compulsory shots 1959 52 cases of polio after compulsory shots CONNECTICUT 1958 45 cases of polio before compulsory shots 1959 123 cases of polio after compulsory shots NORTH CAROLINA 1958 78 cases of polio before compulsory shots 1959 313 cases of polio after compulsory shots LOS ANGELES 1958 89 cases of polio before shots 1959 190 cases of polio after shots The decline of smallpox as with many other infectious diseases including diphtheria and scarlet fever coincided with the sanitation reforms which were instituted in the late 1880s Where obtainable government health records from around the world showed that during the periods of the most intense and widespread vaccination the incidence of and death rates from smallpox were highest For instance in Kansas City and Pittsburgh during the 1920s lawsuits were initiated and won against doctors and medical societies for declaring smallpox epidemics when there were none and for creating epidemics with their vaccination drives Before 1903 smallpox was almost unknown in the Philippines with occurrences in less than 3% of the population and that in a mild form The U S military went in and began vaccinating and by 1905 the Philippines had its first major epidemic Vaccination was made compulsory in 1910 From 1905 to 1923 the mortality rate ranged from 25 75% depending on the count from the various islands The mortality rate was the highest in the cities where vaccination was most intense Dr W W Keen reported 130 264 cases and 74 369 deaths from smallpox in 1921 Japan adopted compulsory vaccinations in 1872 when they had only a few cases of smallpox By 1892 they had the largest smallpox epidemic in their history with 165 774 cases and 29 979 deaths Australia banned the smallpox vaccine after some children were killed by it and in the following 15 years in unvaccinated Australia there were only 3 cases of smallpox The smallpox vaccine was discontinued in the United States after Dr Henry Kempe reported to Congress in 1966 that fewer people were dying from the disease than from vaccination *Vaccine Danger Quackery and Sin* Edward Hendrie,2023-03-07 This book reveals the most significant medical fraud in history The theory that you can prevent illness by injecting poisons into the bodies of healthy people is dangerous quackery and sin All true science has proven the practice of vaccination to be ineffective and unsafe But

the medical establishment has been lured into the superstitious practice hook line and sinker It is not merely a matter of ignorance that the debilitating practice flourishes It is at its core being promoted by those who know it is unsafe and ineffective There is a malevolent spirit behind the practice It is part of a conspiracy against God and man While most doctors are unwitting some are willing minions of that old serpent called the Devil and Satan who are quite happy to kill people for profit Jesus describes such men Ye are of your father the devil and the lusts of your father ye will do He was a murderer from the beginning and abode not in the truth because there is no truth in him When he speaketh a lie he speaketh of his own for he is a liar and the father of it John 8 44
