Enslaved Children Freed After Being Forced to Make Christmas Decorations (1470L)

hours of the day. I think every parent who sees these films will want this practice brought to an end as quickly as possible."

Child advocates say American consumers would likely never know the origin of goods made with child labor, which Brown says has become a global epidemic that needs to be solved. In a push to garner more attention on the issue worldwide, Brown's office released a new report today, "Child Labour and Educational Disadvantage – Breaking the Link, Building Opportunity," which says 91 million children in the global workforce are younger than 12 years old.

In the case of the children rescued in Delhi, he says they were both injured and scared.

"Some of them are lacerated because they're working with glass. And we found these children in this basement. They were not being paid," he said. "They had been trafficked themselves. And they were making these Christmas decorations that were being sold in our shops and our web sites in the West."

Priyanke Ribhu of Global March says many children in India are often lured away from their parents by gangmasters who befriend their parents in the remote villages where they live. The gangmasters reportedly promise parents their kids will be taken to a better place where they will be provided a real education and many great opportunities they could not receive in their villages. Parents are also often told the children will be able to send money back home to help their families.

Far too often, Ribhu says, the children simply end up locked away behind padlocks only to work 17-18, even 19-hour days with no one to help them. Ribhu says holiday decorations similar to those discovered in the recent raid can be found on eBay and in other marketplaces online or in stores.

In addition, she says, the items are often sold off into a sophisticated network of suppliers that make it nearly impossible for retailers or consumers to know whether the goods they are purchasing have been made by child labor.

Ribhu warns, however, there are some tell-tale warning signs American consumers can be on the lookout for if they wish to avoid purchasing products made with child labor. First, she says, if the holiday decorations you are purchasing are not labeled with the country they are made in you might want to be concerned. Next, she says if they have an unusually low price and are marked as "hand made" it is another red flag. Ribhu also warns to be cautious when examining "hand made" items that are also marked as being made in India.

web description treatment of an alkylbenzene with potassium permanganate results in oxidation to give the benzoic acid notes the position directly adjacent to an aromatic group is called the benzylic position the reaction only works if there is a hydrogen attached to the carbon examples

oxidation of alkylarenes to the corresponding acids using - Mar 10 2023

web may 1 2004 the oxidation of toluene by aq KMnO_4 under hydrodynamic cavitation was taken as a model reaction and various parameters have been optimized the oxidation of toluene by aq KMnO_4 gives benzoic acid scheme 1 KMnO_4 in turn is reduced to MnO_2 the reaction did not give any other byproduct
