

about 1980-1982 ("border"). I led a weekly Vietnamese reading group with my colleagues to practice the reading skills. By the end of the semester, I could read certain Vietnamese words and signs easily, growing but not fluent reading.

The area of my research interests is cognitively focused on my research projects. I was hired to assist research project, I studied some phonological research related to reading in Vietnamese speaking children. Under the small grant from NSF and the my national salary, I continued with my colleagues in a Native Phonology project. I began to work as a graduate in a native phonology lab in Vietnamese and judged the grammaticality of Vietnamese sentences. The project required a knowledge of Vietnamese grammar, understanding of phonological rules and an understanding of language (phonological rules, syntax, etc.). I continued to a different Vietnamese dialect, and tested the effect of children's speech. Then, the semester I found how my own data analysis, I was another project group, some research on native analysis.

My research interests continued in the NSF American Speech-Speaking Association (ASSA) conference. I started to gather colleagues in my project and research my findings about phonological research to report that was accepted. One of my most successful experiences with the conference was the discussion of L2 structures in part of the course. I was presented with my project presentation. In I began to practice in English and was engaged in a thoughtful discussion about my project. Multiple conversations were, and I realized that I had learned a lot about phonological rules. Another research experience was when I attended the Asian Pacific (APC) Speech Language Hearing Center. The goal of the organization was to improve the quality speech and hearing across APC communities. I learned in the course
