Frontier Computing on Industrial Applications Volume 1

Jason C. Hung, Neil Yen, Jia-Wei Chang, 2024-01-20 This book gathers the proceedings of the 13th International Conference on Frontier Computing held in Tokyo on July 10-13, 2023 and provides comprehensive coverage of the latest advances and trends in information technology science and engineering. It addresses a number of broad themes including communication networks, business intelligence, and knowledge management. Web intelligence and related fields that inspire the development of information technology. The respective contributions cover a wide range of topics: database and data mining, networking and communications, Web and Internet of things, embedded systems, soft computing, social network analysis, security and privacy, optical communication, and ubiquitous pervasive computing. The Effectiveness of Different Learner Dictionaries

Ursula Wingate, 2016-11-07 Until now learner lexicography has been based more on lexicographic principles than on empirical knowledge of user needs. This book outlines some investigations into the use of dictionaries by intermediate learners. Research was aimed at identifying problems encountered by learners during dictionary consultation, as well as factors that help or prevent the understanding of dictionary definitions. The results show that actual user needs and reference skills do not coincide with lexicographers' assumptions and have led to a number of specific lexicographic and pedagogical recommendations.

School & Society

James McKeen Cattell, Raymond Walters, 1927 **Postcolonial Polysystems** Haidee Kruger, 2012 *Postcolonial Polysystems: The Production and Reception of Translated Children's Literature in South Africa* is an original and provocative contribution to the field of children's literature research and translation studies. It draws on a variety of methodologies to provide a perspective both product and process oriented on the ways in which translation contributes to the production of children's literature in South Africa, with a special interest in language and power, as well as post and neocolonial hybridity. The book explores the forces that affect the use of translation in producing children's literature in various languages in South Africa and shows how some of these forces precipitate in the selection, production, and reception of translated children's books in Afrikaans and English. It breaks new ground in its interrogation of aspects of translation theory within the multilingual and postcolonial context of South Africa, as well as in its innovative experimental investigation of the reception of domesticating and foreignising strategies in translated picture books. The book has won the 2013 EST Young Scholar Prize.

Data Analytics

Shuai Huang, Houtao Deng, 2021-04-15 *Data Analytics: A Small Data Approach* is suitable for an introductory data analytics course to help students understand some main statistical learning models. It has many small datasets to guide students to work out pencil solutions of the models and then compare with results obtained from established R packages. Also, as data science practice is a process that should be told as a story, in this book there are many course materials about exploratory data analysis, residual analysis, and flowcharts to develop and validate models and data pipelines. The main models covered in this

book include linear regression logistic regression tree models and random forests ensemble learning sparse learning principal component analysis kernel methods including the support vector machine and kernel regression and deep learning Each chapter introduces two or three techniques For each technique the book highlights the intuition and rationale first then shows how mathematics is used to articulate the intuition and formulate the learning problem R is used to implement the techniques on both simulated and real world dataset Python code is also available at the book s website <http://dataanalyticsbook.info> [Contributions from the Bermuda Biological Station for Research](#) Bermuda Biological Station for Research,1919 **The Journal of Experimental Zoology** Ross Granville Harrison,William Keith Brooks,1919 A separate section of the journal Molecular and developmental evolution is devoted to experimental approaches to evolution and development **East European Accessions Index** ,1956
