Similarly, in the UK, snail meat is a delicacy amongst the African population and prices can range from 1.5 to 2 per snail. Backyard Snail Farming For Beginners provides you a complete guide to Snail farming in your own backyard. Snail farming can be started with a relatively low capital compared to other forms of animal farming. It is a high profit yielding farming venture if it is professionally managed. Managing a snail farm is less stressful and relatively easy compared to the other sort of animal farming. Snails are extremely easy to handle and control as they are slow moving creatures. Small land space is enough to rear thousands of snails. Therefore, anyone can rear snails in their home garden. Snail droppings are odourless and snails are silent creatures. Therefore, they do not cause any disturbance to the environment like other farm animals. The feed given to the snails is cheap and grows locally. Snail meat has a market value locally and internationally. **Snail Farming Handbook**
