What Is Cool?

No one can truly understand the sensation of jumping directly onto a turtle, but this is just one of many characteristics bestowed upon the main character in the book *Super Plumber Guy*. The book depicts a brightly lit world of wonder, fungi, and amphibians in varying biomes. While the main character, Mr. Plumber, is depicted as an everyman, his distinct look, style, and behaviors as described in the book show that he is anything but.

Mr. Plumber was originally written as something of an everyday character that the reader could embody. He has no true personality, nor does he have a voice, often allowing secondary characters around him to fill in the gaps. The reader does know that he wears a brightly colored hat, jumps high, and enjoys mushrooms. These are humble characteristics that bring out the humanity of the character. Most people are not a list of unique characteristics but a mosaic of smaller idiosyncrasies.

Super Plumber Guy remains a popular read containing a human character that many might consider boring or free of personality. However, Mr. Plumber is an exceedingly human character who acts as a blank slate for the reader. Diving deeper into other characters and their interactions with him may glean further insight into Mr. Plumber's motivations and inner psychology.

Ivory Tower Blues James Cote, Anton L. Allahar, 2007-05-26 The present state of the university is a difficult issue to comprehend for anyone outside of the education system If we are to believe common government reports that changes in policy are somehow making life easier for university graduates we cannot help but believe that things are going right and are getting better in our universities Ivory Tower Blues gives a decidedly different picture examining this optimistic attitude as it impacts upon professors students and administrators in charge of the education system Ivory Tower Blues is a frank account of the contemporary university drawing on the authors own research and personal experiences as well as on input from students colleagues and administrators James E C t and Anton L Allahar offer an insider's account of the university system an accurate alternative view to that overwhelmingly presented to the general public Throughout the authors argue that fewer and fewer students are experiencing their university education in ways expected by their parents and the public The majority of students are hampered by insufficient preparation at the secondary school level lack of personal motivation and disillusionment Contrary to popular opinion there is no administrative or governmental procedure in place to maintain standards of education Ivory Tower Blues is an in depth look at the crisis facing Canadian and American universities the

factors that are precipitating the situation and the long term impact this crisis will have on the quality of higher education

A Strategic Guide to Technical Communication - Second Edition (Canadian) Heather Graves, Roger Graves, 2011-12-20 A Strategic Guide to Technical Communication incorporates useful and specific strategies for writers to create aesthetically appealing and usable technical documentation These strategies have been developed and tested on a thousand students from a number of different disciplines over twelve years and three institutions The second edition adds a chapter on business communication reworks the discussion on technical style and expands the information on visual communication and ethics into free standing chapters Particular attention is paid throughout to the needs of Canadian students *Reception of Northrop Frye*, 2021-09-23 The Reception of Northrup Frye takes a thorough accounting of the presence of Frye in existing works and argues against Frye's diminishing status as an important critical voice **Expressive Techniques**

AA.VV., 2015-02-04 This workbook aims at examining and practicing different writing techniques working on different text types which mostly appear here in the form of articles letters and brochures Prior to the proper use of a writing technique it is important both to recognize the purpose of the source text and to clarify the predominant function that the text vehicles With regard to this a complex but practical analysis is provided by Jakobson's model of communication which explains communication by means of six factors and related communicative functions **John Galt** Regina Hewitt, 2012-05-18 The essays in this volume revalue the work of the Romantic era Scottish writer John Galt connecting his methods and goals with Scottish Enlightenment conjectural historiography and with later social theorizing Emphasizing the construction representation and use of social knowledge the essays find new meaning in Galt's perceptions of the Atlantic and Mediterranean worlds in which he traveled his attitudes toward community building and progress and his innovations in fiction drama journalism and biography *Active Learning in College Science* Joel J. Mintzes, Emily M. Walter, 2020-02-23 This book explores evidence based practice in college science teaching It is grounded in disciplinary education research by practicing scientists who have chosen to take Wieman's 2014 challenge seriously and to investigate claims about the efficacy of alternative strategies in college science teaching In editing this book we have chosen to showcase outstanding cases of exemplary practice supported by solid evidence and to include practitioners who offer models of teaching and learning that meet the high standards of the scientific disciplines Our intention is to let these distinguished scientists speak for themselves and to offer authentic guidance to those who seek models of excellence Our primary audience consists of the thousands of dedicated faculty and graduate students who teach undergraduate science at community and technical colleges 4 year liberal arts institutions comprehensive regional campuses and flagship research universities In keeping with Wieman's challenge our primary focus has been on identifying classroom practices that encourage and support meaningful learning and conceptual understanding in the natural sciences The content is structured as follows after an Introduction based on Constructivist Learning Theory Section I the practices we explore are Eliciting Ideas and Encouraging Reflection Section II

Using Clickers to Engage Students Section III Supporting Peer Interaction through Small Group Activities Section IV Restructuring Curriculum and Instruction Section V Rethinking the Physical Environment Section VI Enhancing Understanding with Technology Section VII and Assessing Understanding Section VIII The book's final section IX is devoted to Professional Issues facing college and university faculty who choose to adopt active learning in their courses The common feature underlying all of the strategies described in this book is their emphasis on actively engaging students who seek to make sense of natural objects and events Many of the strategies we highlight emerge from a constructivist view of learning that has gained widespread acceptance in recent years In this view learners make sense of the world by forging connections between new ideas and those that are part of their existing knowledge base For most students that knowledge base is riddled with a host of naive notions misconceptions and alternative conceptions they have acquired throughout their lives To a considerable extent the job of the teacher is to coax out these ideas to help students understand how their ideas differ from the scientifically accepted view to assist as students restructure and reconcile their newly acquired knowledge and to provide opportunities for students to evaluate what they have learned and apply it in novel circumstances Clearly this prescription demands far more than most college and university scientists have been prepared for
