The Lost History of Sextus Aurelius Victor Justin Stover,George Woudhuysen,2023-07-31 A radical rewriting of the history of fourth century Latin literature This book rediscovers a lost history of the Roman Empire written by Sextus Aurelius

Victor ca 320-390 and demonstrates for the first time both the contemporary and lasting influence of his historical work. Though little regarded today, Victor is the best attested historian of the later Roman Empire, read by Jerome and Ammianus, honoured with a statue by the pagan Emperor Julian and appointed to a prestigious prefecture by the Christian Theodosius. Through careful analysis of the ancient evidence, including newly discovered material, this book re-examines the two short imperial histories attributed to Victor in the manuscripts known today as the *Caesares* and the *Epitome de Caesaribus* and discusses a wide range of both canonical and neglected authors and texts from Sallust and Tacitus to Eunapius and the *Historia Augusta*. By providing a new account of the original scope and scale of Victor's *Historia*, this book revolutionises our understanding of the writing of history in late antiquity. Not only does it have profound implications for the transmission of Classical texts in the Middle Ages and the history of Classical scholarship, but it also solves some of the enduring mysteries of later Latin literature.

Brill's Companion to Ancient Geography Serena Bianchetti, Michele Cataudella, Hans-Joachim Gehrke, 2015-11-24 Brill's *Companion to Ancient Geography* edited by S. Bianchetti, M. R. Cataudella, H. J. Gehrke is the first collection of studies on historical geography of the ancient world that focuses on a selection of topics considered crucial for understanding the development of geographical thought. In this work, scholars, all of whom are specialists in a variety of fields, examine the interaction of humans with their environment and try to reconstruct the representations of the inhabited world in the works of ancient historians, scientists, and cartographers. Topics include Eudoxus, Dicaearchus, Eratosthenes, Hipparchus, Agatharchides, Agrippa, Strabo, Pliny, and Solinus; Ptolemy and the Peutinger Map. Other issues are also discussed, such as onomastics, the boundaries of states, Pythagorism, sacred itineraries, measurement systems, and the Holy Land.

Roman Geographies of the Nile Andy Merrills, 2017-01-05 The River Nile fascinated the Romans and appeared in maps, written descriptions, texts, poems, and paintings of the developing empire. Tantalised by the unique status of the river, explorers were sent to find the sources of the Nile, while natural philosophers meditated on its deeper metaphysical significance. Andy Merrills' book *Roman Geographies of the Nile* examines the very different images of the river that emerged from these descriptions, from anthropomorphic figures brought repeatedly into Rome in military triumphs through the frequently whimsical landscape vignettes from the houses of Pompeii to the limitless river that spilled through the pages of Lucan's *Civil War* and symbolised a conflict and an empire without end. Considering cultural and political contexts alongside the other Niles that flowed through the Roman world in this period, this book provides a wholly original interpretation of the deeper significance of geographical knowledge during the later Roman Republic and early Principate.

The Book of Marvels Larisa Grollemond, Kelin Michael, Elizabeth Morrison, Joshua O'Driscoll, 2024-07-23 This fascinating volume explores an important fifteenth-century illustrated manuscript tradition that provides a revealing glimpse of how western Europeans conceptualized the world. From the classical encyclopedias of Pliny to famous tales such as *The Travels of Marco Polo*, historical travel writing has had a lasting impact despite the fact that it was based on a curious mixture of truth, legend, and outright

superstition One foundational medieval source that expands on the ancient idea of the wonders of the world is the fifteenth century French Book of the Marvels of the World an illustrated guide to the globe filled with oddities curiosities and wonders tales of fantasy and reality intended for the medieval armchair traveler The fifty six locales featured in the manuscript are presented in a manner that suggests authority and objectivity but are rife with stereotypes and mischaracterizations meant to simultaneously instill a sense of wonder and fear in readers In The Book of Marvels the authors explore the tradition of encyclopedias and travel writing examining the various sources for geographic knowledge in the Middle Ages They look closely at the manuscript copies of the French text and its complex images delving into their origins style content and meaning Ultimately this volume seeks to unpack how medieval white Christian Europeans saw their world and how the fear of difference so pervasive in society today is part of a long tradition stretching back millennia
