Solitary Reaper Question And Answers:

Wordsworth and the Zen Mind John G. Rudy, 1996-03-28 This book demonstrates that Zen thought and art provide both a generative and a formative context for understanding the spirituality of the English poet William Wordsworth 1770 1850 Combining methods of modern literary scholarship with the philosophical initiatives of the Kyoto School the text crosses disciplines as well as cultures offering a nonmonotheistic nonpantheistic philosophical ground upon which to study what Wordsworth calls the tranquil soul and the one Presence that underlies the great whole of life Anticipating a variety of audiences the discourse progresses from general introductory level discussions of Zen philosophy and literature to the more technical philosophical idiom of the Kyoto School employing intertextual readings of a variety of Wordsworthian and Zen documents to broaden and deepen the East West dialogue as it has been unfolding since the pioneering work of D T Suzuki and Kitaro Nishida An important aspect of this study is its twofold purpose to situate Wordsworth more centrally in the evolving global community of intercultural and interreligious communication and to demonstrate the unique flexibility and universality of Zen as a medium of spiritual growth and aesthetic understanding

Majka,2014-08-26 Without a doubt Walt Whitman is one of the most philosophical poets His writings are overflowing with
conceptions that range from the Presocratics to Hegel Nevertheless the philosophical aspect of his work has been neglected
with scholars satisfying themselves in making loose allusions to transcendentalist ideas that are said to respire in his writings

Therefore our attention has been drawn to the connection of his poetry with philosophy phenomenology since as Emanuel Levinas once stated the whole of philosophy is only a meditation of Shakespeare Therefore this book throws the Whitmanesque self into a typically phenomenological context silhouetting the notion of selfhood against the views of Martin Heidegger Maurice Merleau Ponty and Emanuel Levinas Moreover the book differentiates between the overall understanding of subjectivity and selfhood The former corresponds to the representative capacities of the Cartesian cogito which in itself is detached from the world of life On the other hand selfhood is defined though the idea of commitment to the overall mattering of the world which in itself is not reduced to the materialist or idealist understanding Rather the world is what phenomenology following Husserl calls Lebenswelt which corresponds to the general way in which the self finds itself attuned to the horizon of its existence
