Solplaatjie Application Forms 2016:

Sol Plaatje's Mhudi Sabata-mpho Mokae, Brian Willan, 2021 *Sol Plaatje's Mhudi* is the first full length novel in English to have been written by a black South African and is widely regarded as one of South Africa's most important literary works. Set in the 1830s it tells the tale of Mhudi and Ra Thaga a romantic story set against a violent backdrop of war between Barolong and Matebele complicated by the intrusions of Boer trekkers with whom the Barolong form an alliance. It is notable among other things for the way Plaatje uses the past to explore the roots of the oppression and injustice suffered by his people a century later when the book was written. Biochar for Environmental Remediation Willis Gwenzi, 2025-01-31 *Biochar for Environmental Remediation: Principles, Applications and Prospects* synthesizes state of the art knowledge on biochar based systems for environmental remediation. This book examines a wide variety of biochar applications for the remediation of inorganic, organic, microbial and emerging contaminants in various environmental media including drinking water, industrial wastewater, urban stormwater, industrial and indoor air pollution and contaminated lands and soils. An increasing body of evidence shows that biochars have potential applications in environmental remediation of contaminants in soils, aqueous systems and air pollution control. This book uses a systematic approach covering biochar preparation, properties and characteristics, removal mechanisms, industrial applications, regeneration and disposal of spent biochar, life cycle analysis and environmental and human health risks. Researchers, engineers and graduate students will find this to be a valuable reference for understanding opportunities for the use of biochar in environmental remediation as it fills the gaps in existing literature and offers a clear roadmap to guide future research. Addresses the whole biochar cycle from preparation, principles of application, industrial application domains, regeneration, recycling and final disposal, life cycle analysis and environmental and human health risks. Covers a broad range of inorganic, organic, microbial and emerging contaminants providing a one stop source of biochar information. Presents applications of biochar in the remediation of diverse environmental media including drinking water, industrial wastewater, urban stormwater, acid mine drainage, contaminated lands and soils and industrial and indoor air pollution control.

The Evolutions of Modernist Epic Václav Paris, 2021-01-07 Modernist epic is more interesting and more diverse than we have supposed As a radical form of national fiction it appeared in many parts of the world in the early twentieth century Reading a selection of works from the United States England Ireland Czechoslovakia and Brazil The Evolutions of Modernist Epic develops a comparative theory of this genre and its global development That development was it argues bound up with new ideas about

biological evolution During the first decades of the twentieth century a period known in the history of evolutionary science as the eclipse of Darwinism evolution's significance was questioned rethought and ultimately confined to the Neo Darwinist discourse with which we are familiar today Epic fiction participated in and was shaped by this shift Drawing on queer forms of sexuality to cultivate anti heroic and non progressive modes of telling national stories the genre contested reductive and reactionary forms of social Darwinism The book describes how in doing so the genre asks us to revisit our assumptions about ethno linguistics and organic nationalism It also models how the history of evolutionary thought can provide a new basis for comparing diverse modernisms and their peculiar nativisms
