

Italian Modernism as a Philosophical Problem? Review of Rocco Rubini's *The Other Renaissance: Italian Humanism between Hegel and Heidegger*

Paul Kottman

As Hegel indicated in the *Phenomenology of Spirit*, the spirit of modernity in Europe takes an uneven course as it passes from land to land. England has its naval tradition and the industrial revolution to which it gave impetus. France has its revolutionary tradition. And if the Germans gazed “across the Rhine at events whose modernity they were destined to experience vicariously,” they nevertheless “began to open a *Sonderweg*, attempting to furrow their own ‘special pathway.’”

“Italians,” argues Rocco Rubini in *The Other Renaissance*, “faced a predicament even more difficult” (OR 48). Rubini claims that Italy—even more than Germany—registered “modernity” as “a philosophical problem,” to borrow a phrase from the title of Robert Pippin’s well-known book.² In Rubini’s own words, the ambition of his book is “to describe the emergence and development of a philosophical tradition whose peculiar outlook was formed in confrontation with the elusive beginnings of modernity” (OR 355). But what would that ambition require? And is it, finally, an apt description of what Rubini has actually accomplished?

The story Rubini tells is befittingly as intricate and character-filled as the Italian Renaissance itself. And to his credit, Rubini treats the Renaissance not as some pre-modern historical past but as a crucial intellectual horizon from which modern thought emerges and that is therefore of ongoing relevance. On the one hand then, Rubini corrects a prevailing but facile assumption—which has been common ever since the publication of Jacob Burckhardt’s celebrated *The Civilization of the Renaissance in Italy* (1860)³—according to which the achievements of the Italian Renaissance were first recognized by a late nineteenth-century German tradition. Instead, Rubini sees modern Renaissance studies

The Other Renaissance Italian Humanism Between Hegel And Heidegger:

The Other Renaissance Rocco Rubini, 2014-12-22 This title offers a cultural translation of modern Italian intellectual and philosophical history a development book ended by Giambattista Vico and Antonio Gramsci It shows Italian philosophy to have emerged during the age of the Risorgimento in reaction to 18th century French revolutionary and rationalist standards in politics and philosophy and in critical assimilation of the German reaction to the same mainly Hegelian idealism and eventually Heideggerian existentialism This is the story of modern Italian philosophy told through the lens of Renaissance scholarship *Philosophy of Culture as Theory, Method, and Way of Life* ,2022-05-16 The idea of culture comprises almost all human activities from science to art from music to microscopy Does anything important escape the limits of this idea The authors of this collection argue that all philosophy is really the philosophy of culture since in some way each and every discipline and subdiscipline is foremost a manifestation of our collective cultural effort Further they argue that by engaging with philosophy as a cultural activity and as a discipline to meaningfully engage with all dimensions of inter cultural life we can live more meaningful flourishing and wisely guided lives

Inventing Modernity in Medieval European Thought, ca. 1100-ca. 1550 Cary J. Nedermann, Bettina Koch, 2019-01-14 One of the most challenging problems in the history of Western ideas stems from the emergence of Modernity out of the

preceding period of the Latin Middle Ages This volume develops and extends the insights of the noted scholar Thomas M Izbicki into the so called medieval modern divide The contributors include a wide array of eminent international scholars from the fields of History Theology Philosophy and Political Science all of whom explore how medieval ideas framed and shaped the thought of later centuries This sometimes involved the evolution of intellectual principles associated with the definition and imposition of religious orthodoxy Also addressed is the Great Schism in the Roman Church that set into question the foundations of ecclesiology In the same era philosophical and theoretical innovations reexamined conventional beliefs about metaphysics epistemology and political life perhaps best encapsulated by the fifteenth century philosopher theologian and political theorist Nicholas of Cusa *Magic and the Dignity of Man* Brian P. Copenhaver, 2019-11-19 This book is nothing less than the definitive study of a text long considered central to understanding the Renaissance and its place in Western culture James Hankins Harvard University Pico della Mirandola died in 1494 at the age of thirty one During his brief and extraordinary life he invented Christian Kabbalah in a book that was banned by the Catholic Church after he offered to debate his ideas on religion and philosophy with anyone who challenged him Today he is best known for a short speech the Oration on the Dignity of Man written in 1486 but never delivered Sometimes called a Manifesto of the Renaissance this text has been regarded as the foundation of humanism and a triumph of secular rationality over medieval mysticism Brian Copenhaver upends our understanding of Pico s masterwork by re examining this key document of modernity An eminent historian of philosophy Copenhaver shows that the Oration is not about human dignity In fact Pico never wrote an Oration on the Dignity of Man and never heard of that title Instead he promoted ascetic mysticism insisting that Christians need help from Jews to find the path to heaven a journey whose final stages are magic and Kabbalah Through a rigorous philological reading of this much studied text Copenhaver transforms the history of the idea of dignity and reveals how Pico came to be misunderstood over the course of five centuries *Magic and the Dignity of Man* is a seismic shift in the study of one of the most remarkable thinkers of the Renaissance **Posterity** Rocco Rubini, 2022-01-18 Reading a range of Italian works Rubini considers the active transmittal of traditions through generations of writers and thinkers Rocco Rubini studies the motives and literary forms in the making of a tradition not understood narrowly as the conservative stubborn preservation of received conventions values and institutions but instead as the deliberate effort on the part of writers to transmit a reformulated past across generations Leveraging Italian thinkers from Petrarch to Gramsci with stops at prominent humanists in between including Giambattista Vico Carlo Goldoni Francesco De Sanctis and Benedetto Croce Rubini gives us an innovative lens through which to view an Italian intellectual tradition that is at once premodern and modern a legacy that does not depend on a date or a single masterpiece but instead requires the reader to parse an expanse of writings to uncover deeper transhistorical continuities that span six hundred years Whether reading work from the fourteenth century or from the 1930s Rubini elucidates the interplay of creation and the reception underlying the enactment

Philosophy Ernesto Grassi, 1980 By going back to the Italian humanist tradition and aspects of earlier Greek and Latin thought Ernesto Grassi develops a conception of rhetoric as the basis of philosophy Grassi explores the sense in which the first principles of rational thought come from the metaphorical power of the word He finds the basis for his conception in the last great thinker of the Italian humanist tradition Giambattista Vico 1668 1744 He concentrates on Vico's understanding of imagination and the sense of human ingenuity contained in metaphor For Grassi rhetorical activity is the essence and inner life of thought when connected to the metaphorical power of the word Professor Grassi connects rhetoric with the power of language to bring the starting points for thought into being This power of speech is at the basis of the philosophical and rational search for truth

Tradition and Subversion in Renaissance Literature Murray Roston, 2007 Deconstructionist critics have argued that literary works contain conflicting or contradictory meanings thus creating an aporia or impasse that prevents readers from interpreting the work Here however Murray Roston offers detailed and essentially new analyses of works by Shakespeare Spenser Jonson and Donne arguing that the seemingly contradictory presence of traditional and subversive elements in their major works actually creates the source of much of their literary achievement Chapters explore *The Merchant of Venice* *Hamlet* *Faerie Queene* *Volpone* and the *Meditations* of John Donne highlighting the creative tension between centripetal and centrifugal factors borrowing Bakhtin's terms As Roston demonstrates this tension exists in a variety of genres including poetry epic and drama and even in religious prose which he acknowledges might be thought to be exempt from such inner conflict because of its doctrinal and theological focus The tension between tradition and subversion both linguistic and cultural then can be seen to produce not aporia in any negative sense but a positive complexity of response from the audience animating and profoundly enriching each work In *The Merchant of Venice* for example Shakespeare merges the previously despised figure of the merchant with a Christ-like figure brilliantly reasserting the Christian condemnation of profiteering while simultaneously advocating its seeming opposite a validation of the burgeoning mercantile activity of the Renaissance *Tradition and Subversion in Renaissance Literary Studies* is a thoughtful study rich in both historical scholarship and in its survey of modern criticism Even those who are quite familiar with the texts discussed here will find Roston's focus on the tension between maintaining the expectations of the culture and pulling toward new ideas an illuminating way to freshly consider these literary works
