The Opening of the Third Eye Dr. Douglas M. Baker, 2014-03-02 The Opening of the Third Eye The human brain is a priceless computer lying perfectly maintained but almost silent None of us uses the full potential of this amazing instrument yet we all possess a secret trigger for activating its mechanism Called the Third Eye in occult language this trigger can release a vortex of psychic energy for the extension of awareness in new dimensions for speeding up or slowing down time as experienced on our planet and achieving one hundred per cent personality integration Dr Baker reveals that the Third Eye derives its power from the pineal pituitary and carotid glands allied to whirlwinds of energy known as chakras or force centres There are seven of these centres in the human body their physical location being the base of the spine the solar plexus the spleen the heart the throat the brow and the top of the head Five safe techniques for arousing the Third Eye are provided They have been practised by the author without hazard and with many rewards for over forty years In our present condition we can only observe the outer surface of the planet manifesting in gaseous liquid and solid form We are completely unaware of the subtler states of matter beneath these outward appearances But the Third Eye reveals all underlying structures This means that one could observe the termites in apparently solid wooden paneling or more constructively man s inner organs could be observed and all traces of disease in them immediately recognised with consequent enormous benefits to medical progress

The Third Eye Fatimah Tobing Rony, 1996 Charting the intersection of technology and ideology cultural production and social science Fatimah Tobing Rony explores early twentieth century representations of non Western indigenous peoples in films ranging from the documentary to the spectacular to the scientific Turning the gaze of the ethnographic camera back onto itself bringing the perspective of a third eye to bear on the invention of the primitive other Rony reveals the collaboration of anthropology and popular culture in Western constructions of race gender nation and empire Her work demonstrates the significance of these constructions and more generally of ethnographic cinema for understanding issues of identity In films as seemingly dissimilar as *Nanook of the North* *King Kong* and research

footage of West Africans from an 1895 Paris ethnographic exposition Rony exposes a shared fascination with and anxiety over race She shows how photographic realism contributed to popular and scientific notions of evolution race and civilization and how in turn anthropology understood and critiqued its own use of photographic technology Looking beyond negative Western images of the Other Rony considers performance strategies that disrupt these images for example the use of open resistance recontextualization and parody in the films of Katherine Dunham and Zora Neale Hurston or the performances of Josephine Baker She also draws on the work of contemporary artists such as Lorna Simpson and Victor Masayesva Jr and writers such as Frantz Fanon and James Baldwin who unveil the language of racialization in ethnographic cinema Elegantly written and richly illustrated innovative in theory and original in method The Third Eye is a remarkable interdisciplinary contribution to critical thought in film studies anthropology cultural studies art history postcolonial studies and women's studies

THE THIRD EYE—The Mystery of Sri Sri Ramakrishna's Visions Dr. Siddhartha Ganguli, 2024-11-21 The 19th century Hindu super saint Avatar Sri Sri Ramakrishna descended on earth as a God incarnate to bring about harmony between different religions some of those believing in gods without forms and a few having faith in gods and goddesses with forms He was an evangelist of spirituality rather than a religious missionary His every step every move was based on his clear visions of the far and near pasts as well as the proximal and distant futures This was possible because of the mystical powers of his open and active third eye The author who is until now the only Ramakrishna scholar who has been studying him deeply bio behaviourally explains with adequate authentic supportive data that the third eye is not an imaginary concept of a creative thinker It is very much a power of the human brain's Pineal Gland It is the only sensory organ that the subtle bodied soul carries to the post death world after leaving the two biological eyes in the lifeless mortal body The book includes a list of all third eye powers that have been discovered until now and also talks about the astha siddhis the eight very special powers that the yogis acquire through sadhana There is a brief discussion also on the seven planes of existence and the post death realms where the souls move once we die
