The Battle for Sanskrit Rajiv Malhotra, 2016-01-10 There is a new awakening in India that is challenging the ongoing westernization of the discourse about India. The Battle for Sanskrit seeks to alert traditional scholars of Sanskrit and Sanskrit Indian civilization concerning an important school of thought that has its base in the US and that has started to dominate the discourse on the cultural, social and political aspects of India. This academic field is called Indology or Sanskrit studies. From their analysis of Sanskrit texts, the scholars of this field are intervening in modern Indian society with the explicitly stated purpose of removing poisons allegedly built into these texts. They hold that many Sanskrit texts are socially oppressive and serve as political weapons in the hands of the ruling elite; that the sacred aspects need to be refuted and that Sanskrit has long been dead. The traditional Indian experts would outright reject or at least question these positions. The start of Rajiv Malhotra's feisty exploration of where the new thrust in Western Indology goes wrong and his defence of what he considers the traditional Indian approach began with a project related to the Sringeri Sharada Peetham in Karnataka, one of the most sacred institutions for Hindus. There was as he saw it a serious risk of distortion of the teachings of the peetham and of sanatana dharma more broadly. Whichever side of the fence one may be on, The Battle for Sanskrit offers a spirited debate marshalling new insights and research. It is a valuable addition to an important subject and in a larger context, on two ways of looking. Is each view exclusive of the other or can there be a bridge between them? Readers can judge for themselves.

The Religious Polemics of the Muslims of Late Medieval Christian Iberia Mònica Colominas Aparicio, 2018-04-17 The Religious Polemics of the Muslims of Late Medieval Christian Iberia examines the corpus of polemical literature against the Christians and the Jews of the protected Muslims Mudejars. Commonly portrayed as communities in cultural and religious decay, Mònica Colominas convincingly proves that the discourses against the Christians and the Jews in Mudejar treatises provided authoritative frameworks of Islamic normativity which helped to legitimize the residence of their communities in the Christian territories. Colominas argues that while the primary aim of the polemics was to refute the views of their religious opponents, Mudejar treatises were also a tool used to advance Islamic knowledge and to strengthen the government and social cohesion of their communities.
