Gruning, 2024-10-24 Mixing fiction with non fiction the author takes the reader on a ride through what irks him enough to write about first in religion theology and then in science and includes the ideas that Abraham is a model for relating to God an anti dualistic bias is superior to the belief in the survival of the soul the insistence that scripture is to be defended at all costs the notion that theology can be systematized the doctrine of the paradoxical atonement is simply a matter of faith humans have no bearing on climate evolution can only occur gradually purity of race is an attainable goal there is no serious competitor to materialism mediums and spiritists are reliable guides to what the afterlife holds and artificial intelligence poses little threat The short stories are provided to offer lighter fare to the weightier topics in the non fiction sections The second such story has also been adapted into a film posted on YouTube Shades of Freedom A. Leon Higginbotham

Jr., 1998-06-11 In Shades of Freedom Judge A. Leon Higginbotham Jr provides a magisterial account of the interaction between the law and racial oppression in America from colonial times to the present demonstrating how the one agent that should have guaranteed equal treatment before the law the judicial system instead played a dominant role in enforcing the inferior position of blacks The issue of racial inferiority is central to this volume as Judge Higginbotham documents how early white perceptions of black inferiority slowly became codified into law Perhaps the most powerful and insightful writing centers on a pair of famous Supreme Court cases which Judge Higginbotham uses to portray race relations at two vital moments in our history the Dred Scott decision of 1857 and the Plessy v Ferguson decision of 1896 Judge Higginbotham also documents the eloquent voices that opposed the openly racist workings of the judicial system and he shows that ironically it was the conservative Supreme Court of the 1930s that began the attack on school segregation and overturned the convictions of African Americans in the famous Scottsboro case But today racial bias still dominates the nation Judge Higginbotham concludes as he shows how in six recent court cases the public perception of black inferiority continues to persist In Shades of Freedom a noted scholar and celebrated jurist offers a work of magnificent scope insight and passion Ranging from the earliest colonial times to the present it is a superb work of history and a mirror to the American soul
