ECSM2016-Proceedings of the 3rd European Conference on Social Media Christine Bernadas, Delphine Minchella, 2016-06-21

[The Rise of English](#) Rosemary Salomone, Rosemary C. Salomone, 2022. A sweeping account of the global rise of English and the high stakes politics of language. Spoken by a quarter of the world's population, English is today's lingua franca, its common tongue. The language of business, popular media and international politics, English has become commodified for its economic value and increasingly detached from any particular nation. This meteoric rise of English has many obvious benefits to communication. Tourists can travel abroad with greater ease. Political leaders can directly engage their counterparts. Researchers can collaborate with foreign colleagues. Business interests can flourish in the global economy. But the rise of English has very real downsides as well. In Europe, imperatives of political integration and job mobility compete with pride in national language and heritage. In the United States and England, English isolates us from the cultural and economic benefits of speaking other languages. And in countries like India, South Africa, Morocco and Rwanda, it has stratified society along lines of English proficiency.

In *The Rise of English*, Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far-reaching effects it has on global and local politics, economics, media, education and business. From the inner workings of the European Union to linguistic battles over influence in Africa, Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders.

Intellectual Decolonisation George Hull, 2024-10-18. This book puts contemporary calls for decolonisation in context. Featuring an interdisciplinary team of scholars from around the world, the book explores and critically assesses the diverse theoretical visions which inform calls for decolonisation of the mind today. Contemporary calls to decolonise focus less on politico-economic relations between states, more on culture and ideas. Sometimes museums are the target, sometimes universities or academic disciplines, sometimes entire legal systems. Commentators and activists speak out for others against intellectual decolonisation, decolonisation of the mind. But what is the colonisation which intellectual decolonisation undoes? Under what circumstances can inculcation or acceptance of ideas constitute colonialism? As this book demonstrates, advocates of intellectual decolonisation give very different, indeed incompatible, answers to these questions. Critically examining conceptualisations of decolonisation spanning a century and four continents, the book explores what is at stake in the choice between these theoretical alternatives. Some see the aim of decolonisation as truth via the removal of distorting effects of power and bias. Others troublingly subordinate truth and knowledge to ethnic or regional identity, potentially paving the way

for culturally authoritarian politics Intellectual Decolonisation Critical Perspectives is an indispensable resource for teachers students and scholars seeking to deepen their understanding of debates about decolonisation of the mind Individual chapters will interest researchers of the new right wing ethnonationalist political ideologies emerging in Europe Asia and Africa Originally published as a special issue of Social Dynamics this book is also a guide for anyone wondering what decolonisation is all about Routledge Handbook of African Media and Communication Studies Winston Mano,Viola Milton,2021-02-11
