Rutgers U Annotation 2004 Book News Inc Portland OR booknews com **Taking Sides?** HILL,2021-03-12 *Books in Print Supplement* ,2002 **The Shaping Shaikh** Dejan Aždajić,2020-01-20 Islam is more than a system of rigid doctrines and normative principles It is a diverse mosaic of subjective often contradictory interpretations and discrepant applications that prohibit a narrow one dimensional approach This book argues that to uncover this complex reality and achieve a more accurate understanding of Islam as a lived religion it is imperative to consider Islam from the point of view of human beings who practice their faith Consequently this book provides an important contribution through a detailed ethnographic study of two contemporary Sufi communities Although both groups shared much in common there was a fundamental almost perplexing range of theological convictions and ritual implementations This book explores the mechanism that accounts for such diversity arguing for a direct correlation between Sufi multiformity and the agency of the spiritual leader the Shaikh Empirical research regarding the authority by which Shaikhs subjectively generate legitimate adaptations that shape the contours of religious belief are lacking This study is significant because it focuses on how leadership operates in Sufism highlighting the primacy of the Shaikh in the selection and appropriation of inherited norms **A World History of Art** Hugh Honour,John Fleming,2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity s artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression The Crusader ,1922 Decision Advantage Jennifer E. Sims,2022 In *Decision Advantage* Jennifer E Sims examines the role of intelligence in international conflict throughout history to show that intelligence has been a measurable buildable and consequential form of power over centuries Diving deep into the history of the 16th Century s Spanish Armada two Civil War battles the hunt for President Lincoln s assassin and key diplomatic crises before the two World Wars Sims develops insights into how competitors have created and used intelligence power to their advantage including winning against otherwise stronger opponents **Against Popery** Evan Haefeli,2020-12-15 Although commonly regarded as a prejudice against Roman Catholics and their religion anti popery is both more complex and far more historically significant than this common conception would suggest As the essays collected in this volume demonstrate anti popery is a powerful lens through which to interpret the culture and politics of the British American world In early modern England opposition to tyranny and corruption associated with the papacy could spark violent conflicts not only between Protestants and Catholics but among Protestants themselves Yet anti popery had a capacity

for inclusion as well and contributed to the growth and stability of the first British Empire Combining the religious and political concerns of the Protestant Empire into a powerful if occasionally unpredictable ideology anti popery affords an effective framework for analyzing and explaining Anglo American politics especially since it figured prominently in the American Revolution as well as others Taking an interdisciplinary approach written by scholars from both sides of the Atlantic working in history literature art history and political science the essays in Against Popery cover three centuries of English Scottish Irish early American and imperial history between the early sixteenth and early nineteenth centuries More comprehensive inclusive and far reaching than earlier studies this volume represents a major turning point summing up earlier work and laying a broad foundation for future scholarship across disciplinary lines Contributors Craig Gallagher New England College Tim Harris Brown University Clare Haynes Independent Researcher Susan P Liebell St Joseph s University Brendan McConville Boston University Anthony Milton University of Sheffield Andrew R Murphy Virginia Commonwealth University Gregory Smulewicz Zucker Rutgers University New Brunswick Laura M Stevens University of Tulsa Cynthia J Van Zandt University of New Hampshire Peter W Walker University of Wyoming Early American Histories

Digital International Relations Corneliu Bjola,Markus Kornprobst,2023-11-03 This book analyses how digital transformation disrupts established patterns of world politics moving International Relations IR increasingly towards Digital International Relations This volume examines technological agential and ordering processes that explain this fundamental change The contributors trace how digital disruption changes the international world we live in ranging from security to economics from human rights advocacy to deep fakes and from diplomacy to international law The book makes two sets of contributions First it shows that the ongoing digital revolution profoundly changes every major dimension of international politics Second focusing on the interplay of technology agency and order it provides a framework for explaining these changes The book also provides a map for adjusting the study of international politics to studying International Relations making a case for upgrading augmenting and rewiring the discipline Theory follows practice in International Relations but if the discipline wants to be able to meaningfully analyse the present and come up with plausible scenarios for the future it must not lag too far behind major transformations of the world that it studies This book facilitates that theoretical journey This book will be of much interest to students of cyber politics politics and technology and International Relations

Common: The Development of Literary Culture in Sixteenth-Century England Neil Rhodes,2018-04-13 This volume explores the development of literary culture in sixteenth century England as a whole and seeks to explain the relationship between the Reformation and the literary renaissance of the Elizabethan period Its central theme is the common in its double sense of something shared and something base and it argues that making common the work of God is at the heart of the English Reformation just as making common the literature of antiquity and of early modern Europe is at the heart of the English Renaissance Its central question is why was the Renaissance in England so late That question is addressed in terms of the

relationship between Humanism and Protestantism and the tensions between democracy and the imagination which persist throughout the century Part One establishes a social dimension for literary culture in the period by exploring the associations of commonwealth and related terms It addresses the role of Greek in the period before and during the Reformation in disturbing the old binary of elite Latin and common English It also argues that the Reformation principle of making common is coupled with a hostility towards fiction which has the effect of closing down the humanist renaissance of the earlier decades Part Two presents translation as the link between Reformation and Renaissance and the final part discusses the Elizabethan literary renaissance and deals in turn with poetry short prose fiction and the drama written for the common stage

Creating and Crossing Boundaries in Ethiopia Susanne Epple, 2014 Ethiopia is best understood as a country with multiple internal divides but also endless interconnections which are constantly renegotiated Contributing to the growing literature on the country's cultural diversity this book offers special emphasis on the contemporary dynamics of intra and intergroup boundary formation and alteration It also adds to the more general literature on identity change boundary transgression of individuals and groups and cultural contact and change With contributions from experienced Ethiopian and international scholars the book offers perspectives on territorial ethnic class caste gender and age related boundaries in different parts of the country Series African Studies Afrikanische Studien Vol 53 Subject Sociology African Studies Cultural Studies
