This book explores the body's physical limits and the ways in which the confines of the body are delineated transgressed or controlled in literary and philosophical texts Drawing on classics philosophy religious studies medieval studies and critical theory and examining material ranging from Homer to Game of Thrones this volume facilitates an interdisciplinary investigation into how the boundaries of the body define the human form in language This volume's essays suggest that the body's meaning is perhaps never more evident than in the violation of its wholeness The boundaries of the body are areas of transition between states and are therefore vulnerable As individuals find themselves isolated from their world and one another their bodies regularly allow for physical interactions incur transgressions and violations and undergo profound transformations Thus sympathy sexuality disease and violence are among the main themes of the volume which ultimately reexamines the place of the body in our understanding of what it means to be human Horse Magick Lawren Leo,2020
Along with the bear horses are the primary creatures associated with shamanism and traditions influenced by it The horse has long been exerting its psychic pressure through the astral realm on our subconscious minds and it is time for the witch the warlock the magician and all magickal practitioners to embrace its equine magick This book contains spells rituals chants and meditations for many purposes loosely based around equine imagery Numerous traditions are represented as are many deities including Athena Epona and Baba Yaga *Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc* William Jerdan,William Ring Workman,Frederick Arnold,John Morley,Charles Wycliffe Goodwin,1821 **Catalogue of Books**
