La sophrologie Richard Esposito, 2020-08-19T00:00:00+02:00 Fondé en 1960 par un neuropsychiatre le professeur Alfonso Caycedo la sophrologie est une méthode corporelle s'inspirant entre autres de l'hypnose et de la phonologie. Pratique préventivement elle contribue à réguler le stress et à éviter les risques psychosociaux. Parce qu'elle mobilise les potentialités personnelles elle peut aussi être utile à tous ceux qui désirent optimiser leurs capacités apprennent force d'entraînement comment puiser en eux-mêmes des ressources inexploitées. D'abord d'application médicale clinique et thérapeutique la sophrologie a peu à peu investi les champs du sport de l'entreprise ou encore de la pédagogie. Aujourd'hui elle offre des perspectives de carrière. Mais toutes les formations ne se valent pas. Richard Esposito fait le point sur une méthode de développement personnel en plein essor qui en complément de soins médicaux classiques aide mieux à vivre.

Sophrologie Patrick-André Chéné, 2015-09-01 La diversité et la multiplicité des domaines d'application de la sophrologie ont rendu nécessaire la parution d'un ouvrage qui propose à tous les sophrologues une méthodologie prenant en compte cette variété. Ce livre pour guider la réflexion des sophrologues dans la constitution de protocoles correspondant des secteurs d'intervention précis. Cet ouvrage rend compte des différentes démarches sophroniques menées par les meilleurs spécialistes dans leurs disciplines propres. Leurs travaux ont été rassemblés et présentés par le docteur Patrick André Chéné pour présenter les différents champs d'application de la sophrologie : la branche clinique qui regroupe la plupart des domaines de la médecine, la branche socio-prophylactique qui touche tous les domaines sociaux et enfin les domaines comme la pratique sportive et la pédagogie dans lesquels la sophrologie obtient des résultats particulièrement remarquables. Préface du Professeur Alfonso Caycedo.
