Excel 2007: The Missing Manual Matthew MacDonald,2006-12-27 Microsoft Excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft's documentation is as scant as ever so even if users can find advanced features they probably won't know what to do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It's a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information *Excel 2010: The Missing Manual* Matthew MacDonald,2010-06-18 Excel the world's most popular spreadsheet program has the muscle to analyze heaps of data Beyond basic number crunching Excel 2010 has many impressive features that are hard to find much less master especially from online help pages This Missing Manual clearly explains how everything works with a unique and witty style to help you learn quickly Navigate with ease Master Excel's tabbed toolbar and its new backstage view Perform a variety of calculations Write formulas for rounding numbers calculating mortgage payments and more Organize your data Search sort and filter huge amounts of information Illustrate trends Bring your data to life with charts and graphics including miniature charts called Sparklines Examine your data Summarize information and find hidden patterns with pivot tables and slicers Share your spreadsheets Use the Excel Web App to collaborate with colleagues online Rescue lost data Restore old versions of data and find spreadsheets you forgot to save Microsoft Excel 5.0 Judith J. Lambrecht,Nina M. Edgmand,1995 **Excel 2013: The Missing Manual** Matthew MacDonald,2013-04-18 The world's most popular spreadsheet program is now more powerful than ever but it's also more complex That's where this Missing Manual comes in With crystal clear explanations and hands on examples Excel 2013 The Missing Manual shows you how to master Excel so you can easily track analyze and chart your data You'll be using new features like PowerPivot and Flash Fill in no time The important stuff you need to know Go from novice to ace Learn how to analyze your data from writing your first formula to charting your results Illustrate trends Discover the clearest way to present your data using Excel's new Quick Analysis feature Broaden your analysis Use pivot tables slicers and timelines to examine your data from different perspectives Import data Pull data from a variety of sources including website data feeds and corporate databases Work from the Web Launch and manage your workbooks on the road using the new Excel Web App
