Language Attitudes and the Pursuit of Social Justice Mara R. Barbosa, Talia Bugel, 2024-11-28 Language Attitudes and the Pursuit of Social Justice explores the relationship between language attitudes and forms of inequality and oppression fostering greater awareness of how linguistic choices become political ones and encouraging the search for practices that promote social justice The volume is organized around different sections that look at language attitudes and their intersections with different dimensions of contemporary social and cultural life including language policy and planning language and education and the role of identity in forming strong communities that promote multilingualism and multiculturalism Both established and emerging scholars explore the ways in which

language attitudes are informed by extralinguistic factors drawing on case studies involving French Italian and Spanish in Canada interaction of migrant languages in Austria national languages in West Africa and Senegal signed languages in Spain Spanish in Aruba Uruguay the US Catalonia and Majorca and Quechua in Peru The collection urges the development of critical linguistic awareness and a view of languages which recognizes that they shift and change across time and space This book will be of particular interest to scholars of sociolinguistics multilingualism language education language policy and planning and bilingual education

Effective Programs for Latino Students Robert E. Slavin, Margarita Calderon, Margarita Calderon, 2012-11-12 Latino or Hispanic children are one of the fastest growing groups in U S schools today On average these students perform worse than Anglo students on measures of academic achievement and other measures of academic success and their drop out rate is high There are schools of excellence among those serving Latino children but the majority of these children are placed at risk by schools and community institutions unable to build on the cultural personal and linguistic strengths these children are likely to bring with them to school Schools serving Latino students need programs based on high quality research capable of being replicated and adapted to local circumstances and needs The purpose of this book is to present the current state of the art with respect to research on effective instructional programs for Latino students in elementary and secondary grades Surprisingly this has not been done before there are many books on the situation of Latino students in U S schools but none so far have reviewed research on the outcomes of programs designed to enhance the academic achievement of these students The chapters represent a broad range of methodologies from experimental to correlational to descriptive and the solutions they propose are extremely diverse Each examines in its own way programs and practices that are showing success Together they present a rich array of research based effective programs that are practical widely available and likely to make a profound difference What binds the chapters together is a shared belief that Latino students can succeed at the highest levels if they receive the quality of instruction they deserve and a shared belief that reform of schools serving many Latino students is both possible and essential This is a book filled with statistics description and reviews of research but even more it is filled with optimism about what schools for Latino students can be and what these students will achieve It is a highly relevant and useful resource for educators policymakers and researchers who want to use research to inform the decisions they make about how to help Latino students succeed in elementary and secondary schools and beyond
