SLIM DOWN GUIDE

Transformation Meals

Welcome

Our ultimate quick-start meal plan has been designed to help accelerate the results of your **Tapout XT** fitness program! We have developed ten days of enticing recipes, nourishing food selections, and delicious meal varieties all designed to help jump start your **Tapout XT** fitness regimen.

Your **Tapout XT** meals are high in protein and low in carbs and fat. Protein is a macronutrient, and we require large amounts of it for basic bodily functions. We use protein to build and repair tissues. It is also the building block of bone, muscle, cartilage and blood. Higher protein consumption combined with moderate exercise helps promote lean muscle development and reduce hunger.

The benefits of eating lower carbohydrate meals include greater weight loss, better fat burning action, and more consistent energy levels. A reduction in carbohydrates in the diet helps to eliminate rapid changes in blood sugar levels or "sugar rush" and the inevitable "sugar crash" that often results in binge eating. In addition, when carbohydrates are withheld from the body it ultimately relies on fat storage to create energy, further accelerating weight loss.

Fats comprise more than double the calories per gram than carbohydrates or protein, so following a diet that is low in fat directly supports weight loss. In addition, saturated and/or trans fats can collect in the arteries and increase the risk of heart disease and stroke. Following a low fat diet is an important part of healthy living along with portion control, limiting sodium intake, cutting out refined carbohydrates, and drinking plenty of water.

Keep in mind that the **Tapout XT** program is part of a larger lifestyle change and as you tone up, shed fat, and increase your lean body mass you are also creating a more vigorous mind and body. This meal plan offers recipe options
